“Timely . . . brilliant . . . hugely enjoyable, magnificently researched and deeply absorbing.”—Jason Goodwin, *New York Times Book Review* At midnight, December 31, 1925, citizens of the newly proclaimed Turkish Republic celebrated the New Year. For the first time ever, they had agreed to use a nationally unified calendar and clock. Yet in Istanbul—an ancient crossroads and Turkey's largest city—people were looking toward an uncertain future. Never purely Turkish, Istanbul was home to generations of Greeks, Armenians, and Jews, as well as Muslims. It welcomed White Russian nobles ousted by the Russian Revolution, Bolshevik assassins on the trail of the exiled Leon Trotsky, German professors, British diplomats, and American entrepreneurs—a multicultural panoply of performers and poets, do-gooders and ne'er-do-

King. During the Second World War, thousands of Jews fleeing occupied Europe found passage through Istanbul, some with the help of the future Pope John XXIII. At the Pera Palace, Istanbul's most luxurious hotel, so many spies mingled in the lobby that the manager posted a sign asking them to relinquish their seats to paying guests. In beguiling prose and rich character portraits, Charles King brings to life a remarkable era when a storied city stumbled into the modern world and reshaped the meaning of cosmopolitanism.

"Rich and riveting, complex and compelling, powerful and poetic."—Peter M. Gianotti, *Newsday* In Odessa, the greatest port on the Black Sea, a dream of cosmopolitan freedom inspired geniuses and innovators, from the writers Alexander Pushkin and Isaac Babel to Zionist activist Vladimir Jabotinsky and immunologist Ilya Mechnikov. Yet here too was death on a staggering scale, as World War II brought the mass murder of Jews carried out by the city's Romanian occupiers. Odessa is an elegy for the vibrant, multicultural tapestry of which a thriving Jewish population formed an essential part, as well as a celebration of the survival of

A century ago, everyone knew that people were fated by their race, sex, and nationality to be more or less intelligent, nurturing, or warlike. But Columbia University professor Franz Boas looked at the data and decided everyone was wrong. Racial categories, he insisted, were biological fictions. Cultures did not come in

King packages labeled "primitive" or "advanced." What counted as a family, a good meal, or even common sense was a product of history and circumstance, not of nature. In *Gods of the Upper Air*, a masterful narrative history of radical ideas and passionate lives, Charles King shows how these intuitions led to a fundamental reimagining of human diversity. Boas's students were some of the century's most colorful figures and unsung visionaries: Margaret Mead, the outspoken field researcher whose *Coming of Age in Samoa* is among the most widely read works of social science of all time; Ruth Benedict, the great love of Mead's life, whose research shaped post-Second World War Japan; Ella Deloria, the Dakota Sioux activist who preserved the traditions of Native Americans on the Great Plains; and Zora Neale

Hurst, whose studies under Boas fed directly into her now classic novel, *Their Eyes Were Watching God*. Together, they mapped civilizations from the American South to the South Pacific and from Caribbean islands to Manhattan's city streets, and unearthed an essential fact buried by centuries of prejudice: that humanity is an undivided whole. Their revolutionary findings would go on to inspire the fluid conceptions of identity we know today. Rich in drama, conflict, friendship, and love, *Gods of the Upper Air* is a brilliant and groundbreaking history of American progress and the opening of the modern mind.

building a nation 'from the people up' meant that the peasantry, by far Turkey's largest ethnographic group, became an important symbol of social cohesion. Here, Sinan Yildirmaz analyses the history of modern Turkey through the material culture of this peasantry - their speeches, social club documents, art and diaries - and reveals a rich social and political life which flowered after the Second World War. Politics and the Peasantry in Post-War Turkey is the first history to show how the changing peasantry laid the foundations for the modern Turkish state, and will be essential reading for students and scholars of the Ottoman Empire and of the History of Modern Turkey.

who defined an era in Cairo. One of the world's most multicultural cities, twentieth-century Cairo was a magnet for the ambitious and talented. During the 1920s and '30s, a vibrant music, theater, film, and cabaret scene flourished, defining what it meant to be a "modern" Egyptian. Women came to dominate the Egyptian entertainment industry—as stars of the stage and screen but also as impresarias, entrepreneurs, owners, and promoters of a new and strikingly modern entertainment industry. Raphael Cormack unveils the rich histories of independent, enterprising women like vaudeville star Rose al-Youssef (who launched one of Cairo's most important newspapers); nightclub singer Mounira al-Mahdiyya (the first woman to lead an Egyptian theater company) and her great rival, Oum Kalthoum (still

Buffeted by crosswinds of colonialism and nationalism, conservatism and liberalism, “religious” and “secular” values, patriarchy and feminism, this new generation of celebrities offered a new vision for women in Egypt and throughout the Middle East.
