The material in this book will provide sound practice in basic mathematical operations. Emphasis is placed on determining operations, working with graphs, money, time, averaging, measurement, volume, and percents. This workbook is designed to provide practice for the student and is compatible with classroom instruction. The pages are presented in a suggested order, but may be used in any order which best meets a child's needs. Parents who wish their children to have practice in word problems will find the book as helpful as classroom teachers will find it. The exercises are presented so that a child can work with a minimum of supervision. Answers are included in a four-page leaflet in the middle of the book. This leaflet can be easily removed.
