Moments of Impact Short Version - YouTube

With Lloyd Sherr, Hunter Abbott, Paul Bassett, Leisa Bell.

Two leading experts on “strategic conversation design” present creative methods for enabling teams to address issues while minimizing resource-depleting workshops and meetings, providing diagnostic questions, best practices, and advice.

Moments of Impact is a book on a mission: to eradicate time-sucking, energy-depleting workshops and meetings. In our fast-changing world, organizations have important challenges and opportunities to address—and no time to waste. Moments of Impact delivers the single most useful resource for managers and leaders who need better strategic conversation—now—to shape the future of their organizations. Moments of Impact is an essential guide for ambitious leaders who get assigned the hardest and most vexing strategic issues in their organizations, for entrepreneurs trying to manage board expectations, for social change agents pioneering new business models for community impact, for hopeful educators and healthcare practitioners trying to transform slow-to-change industries, and for enterprising students committed to tackling global challenges. Drawing on decades of combined experience as innovation strategists, Ertel and Solomon articulate the purpose, principles, and practices of well-designed strategic conversations. They weave together a lively and compelling mix of social science theories and research, interviews with more than 100 thought leaders, organization leaders, and practitioners, as well as dozens of anecdotes and practical cases from diverse organizations. The book also includes a sixty-page Starter Kit with diagnostic questions, best practices, tips and suggestions, and recommended readings to enable you to put the ideas to work immediately.

Moments of Impact is the true story of Tom Wilson, the sole survivor of a plane crash that killed seven others. Badly burned and alone on a mountainous uninhabited island in British Columbia on a cold November day, Tom had the fight of his life on his hands. Join Tom on this journey as he shares his story of survival, spirituality, and the search for meaning in the face of disaster, and his newfound quest to make the world a safer place. This book is a must read for anyone interested in safety and behavior change.

The New York Times bestselling authors of Switch and Made to Stick explore why certain brief experiences can jolt us and elevate us and change us—and how we can learn to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and forget the rest. Why “we feel most comfortable when things are certain, but we feel most alive when they’re not.” And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world’s youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck—but why would we leave our most meaningful, memorable moments to chance when we can create them? The Power of Moments shows us how to be the author of richer experiences.

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will discover how to organize strategic meetings to move forward on complex issues. You will also discover that : today's challenges require creative thinking and adaptability; conventional meetings are unsuitable for thinking outside the “status quo”; human psychology is an essential element for effective communication; a fruitful exchange requires the involvement of a variety of different profiles, fully mobilized on key issues. Many companies today are faced with difficult strategic choices. Faced with markets in constant upheaval, they must chart new paths while confronting uncertainty. This requires great adaptability. Too often, however, decision making takes place in “classic” meetings, where commitment is low and no one strays from the beaten path. To generate a positive momentum, these exchanges must be reinvented to make them real moments of debate and creation. *Buy now the summary of this book for the modest price of a cup of coffee!

In the first half of the twentieth century, Jack Trice, Ozzie Simmons, and Johnny Bright played college football for three Iowa institutions: Iowa State University, the University of Iowa, and Drake University, respectively. At a time when the overwhelming majority of their opponents and teammates were white, the three men, all African American, sustained serious injuries on the gridiron, either because of their talents, their race, or, most likely, because of an ugly combination of the two. Moments of Impact tells their stories and examines how the local communities of which they were once a part have forgotten and remembered those assaults over time. Of particular interest are the ways those memories have manifested in a number of commemorations, including a stadium name, a trophy, and the dedication of a football field. Jaime Schultz focuses on the historical and racial circumstances of the careers of Trice, Simmons, and Bright as well as the processes and politics of cultural memory. Schultz develops the concept of “racialized memory”—a communal form of remembering imbued with racial significance—to suggest that the racial politics of contemporary America have engendered a need to redress historical wrongs, congratulate Americans on the ostensible racial progress they have made, and divert attention from the unrelenting persistence of structural and ideological racism.

How to use this book: 8 Chapters; 48 Case studies; 20 Tools; 7 Core skills; 29 Designers; 36 Hacks; >150 Visuals.

In our fast-changing world, leaders are increasingly confronted by messy, multifaceted challenges that require collaboration to resolve. But the standard methods for tackling these challenges--meetings packed with data-drenched presentations or brainstorming sessions that circle back to nowhere--just don't deliver. Great strategic conversations generate breakthrough insights by combining the best ideas of people with different backgrounds and perspectives. In this book, two experts “crack the code” on what it takes to design creative, collaborative problem-solving sessions that soar rather than sink. Drawing on decades of experience as innovation strategists--and supported by cutting-edge social science research, dozens of real-life examples, and interviews with well over 100 thought leaders, executives, and fellow practitioners--they unveil a simple, creative process that leaders and their teams can use to unlock solutions to their most vexing issues. The book also includes a “Starter Kit” full of tools and tips for putting the book’s core principles into practice.

Who were the scientific geniuses behind some of the most innovative and important discoveries in modern medicine? Medical science in the 21st century is continuing to advance, but the character of that advancement is now governed by research teams and committees. Yet in the 19th century – a century when there were many great individual discoveries in medicine – the contributions of four individuals in particular accelerated developments in each of the main branches of medicine. This medical history by Thomas Dormandy focuses on these four individuals and their “moments of truth” - Laennec, a French physician; Semmelweis, a Hungarian obstetrician; Lister, a Scottish surgeon; and Walter Reed, an American army pathologist. They are not well known, compared with their contemporaries in other walks of life, yet their moments of truth transformed the lives of millions. Thomas Dormandy is a retired consultant pathologist (MD, PhD, DSc, FRCS, FRCPath). He is the author of over 300 scientific papers and two books aimed at a general readership, The White Death: A History of Tuberculosis , which was short listed for the Aventis prize and RMS book of the month, and Old Masters, a work of art history.

NATIONAL BESTSELLER WALL STREET JOURNAL BESTSELLER LOS ANGELES TIMES BESTSELLER TORONTO STAR BESTSELLER Based on his TEDx talk “Everyday Leadership (the Lollipop Moment)”--voted one of the 15 most inspirational TED talks of all time--This Is Day One is leadership expert Drew Dudley’s guide to cultivating the behaviors that will help you to succeed and empower those around you. If you're intimidated by the mystique surrounding leadership, this book is for you. Dudley simplifies leadership without denying its complexity, demonstrating that leadership in all its forms begins at the same clear and accessible place for everyone: what he calls “Day One.” Day One is when you discover, define, and start to consistently deliver on your foundational leadership values. Living that day over and over is what creates leaders, and Dudley provides the key tools necessary to craft and commit to your own personal Day One, including: A step-by-step process designed to surface your core leadership values and embed them into your daily behavior A roadmap to behavioral changes proven to increase commitment, pride, productivity, and happiness Insights into key leadership values that drive performance and impact Sharing the process that led him through battles with alcohol, obesity, and personal tragedy. Dudley shows you how to develop a relentless commitment to the daily behaviors that will make you a better executive, coach, or teacher, and how you can inspire others to do the same. Most of the leadership on the planet comes from people who don't see themselves as leaders. This Is Day One shows you how to start changing that. Through the insights of leaders of all types--CEOs, elite athletes, cab drivers, custodians, and everyone in between--Dudley helps you understand what your Day One needs to look like, reminds you why you're a leader, and makes clear what you can do about it--starting today, on Day One.
