"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

Whether you're a full-time trader looking to make a living or a part-time trader looking to make some extra money, the foreign exchange (forex) market has what you desire--the potential to make sizeable profits and 24/7 accessibility. But to make it in today's forex market, you need more than a firm understanding of the tools and techniques of this discipline. You need the guidance of someone who has participated, and prevailed, in this type of fast-paced environment. Raghee Horner has successfully traded in the forex market for over a decade, and now, in Thirty Days of Forex Trading, she shares her experiences in this field by chronicling one full month of trading real money. First, Horner introduces you to the tools of the forex trade, and then she moves on to show you exactly what she does, day after day, to find potentially profitable opportunities in the forex market. Part instructional guide, part trading journal, Thirty Days of Forex Trading will show you--through Horner's firsthand examples--how to enter the forex market with confidence and exit with profits.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State--and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years--it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Katriona Cardona My life ended the moment the X-Clan found me. Bitten.Turned.And claimed by him. My genetic markers label me as a rare Omega. But inside, I'm all female alpha. And I will not heel. Not even to the Alpha of Andorra Sector. Ander Cain promises me protection.A new world of pleasure and pain.But he wants all of me in return.Even if it means taking me by force. I'll be damned if I give up my inner fight. I spent the last twenty-one years battling the walking dead. These wolves won't know what hit them when I'm through. Ander Cain My life began the moment I found her, my darling little mate. She's the force of nature Andorra Sector needs to give us hope for a future. A reason to keep going and to protect our lands from the zombie infestation beyond. Yet she refuses to play by our rules. Born in a time where humans will do anything to survive, she's not used to the pack hierarchy or the laws our kind abides by. Oh, but she'll learn. And I'll thoroughly enjoy being the one to train her. Katriona Cardona can fight me all she wants, but in the end, she will be mine. Whether she submits or not. Note: This is a standalone shifter romance with omegaverse and dystopian elements. There will be three main novels in the X-Clan series, all featuring different couples. Novellas may appear in between about side characters as well.
