"Includes hydrate prevention, chemical injection systems, hydrate inhibitor methods; Condensation process, Glycol Regeneration and Molecular Sieves; An appendix provides the reader with additional exercises and solutions"--

What are the factors of Lukashenka's longevity at the helm of power? This question is addressed in the context of Belarusian history and identity, not as an outcome of a form of government deceitfully imposed on an allegedly benighted people whom better positioned and informed outsiders seek to enlighten and liberate.

Eurasian economies have to become efficient more productive, job-creating, and stable. But efficiency is not the same as diversification. Governments need to worry less about the composition of exports and production and more about asset portfolios natural resources, built capital, and economic institutions.

The third edition succeeds the fifth update of second edition. One of the main features has been the adoption of new and revised international standards, notably the International Standard Identifier for Libraries and Related Organizations, the ISBN 13 and the linking ISSN. New fields have been added for recording the Persistent Record Identifier. Uniform Conventional Headings for Legal and Religious texts are now catered for with separate fields. A number of fields have been revised: archival materials, manuscripts and documentation produced by the ISSN International Centre.

This book covers the optics of single biological particles, both theory and experiment, with emphasis on Elastic Light Scattering and Fluorescence. It deals with the optics of bacteria (bio-aerosols), marine particles (selected phytoplankton communities) and red and white blood cells. Moreover, there are dedicated chapters on a general theory for scattering by a cell, and modelling and simulation of scattering by inhomogeneous biological cells.
