Taking the Japanese Language Proficiency Test is a great way to not only assess your Japanese skills, but also to give yourself a concrete goal for your learning. I am a firm believer in setting goals. It is the quickest way to make progress. Unfortunately, with goal-setting, there is usually the problem of maintaining motivation. By paying money and making plans to sit in a test (usually) in a different city; however, you are making a major investment of time and money. There are few pressures in life that can motivate better than time or money. That's why we always recommend any serious student of Japanese to sign up and study for the JLPT. Japanese Vocabulary for JLPT N5 covers all the vocabulary needed to pass the Japanese Language Proficiency Test level N5. This is the easiest of the test levels and is suitable for beginners who have mastered hiragana. Add the 1,445 MP3s to your MP3 player, iPhone, or computer and listen while studying the book. Eight large MP3 files are also included. These have each word followed by the example sentence for sequential learning.
