What are the 24 words for 'you' in Indonesian? Why does Indonesian have four words for 'rice but no exact equivalent of 'farm'? How do you say 'Bang!' 'Ouch!' and 'Eh?'. What is the difference between dong and doang in colloquial Indonesian? How did the name of the Hindu god Indra give us the modern Indonesian word for motor vehicle? Whether you are a beginner or an advanced student of Indonesian, The Learner's Dictionary of Today's Indonesian is an essential tool to help you gain an authentic, up-to-date, and active command of the language. It provides a wholly new, very detailed snapshot of the core vocabulary of Indonesian. Among its features are: * thousand of illustrative sentences * an easy pronunciation guide * extensive cross-referencing * helpful tips on usage * topic lists which group the dictionary's words according to 42 'common usage' areas, including time, colours, daily activities, the home, sport, occupations, mass media, religion and business. A unique feature of the dictionary is the dozens of boxes giving invaluable information on everyday usage, word origins and nuances of meaning. Rich in information on the cultural context in which words are used, it includes notes on the difficulties learners experience arising from differences in culture and history between English-speakers and Indonesian-speakers. This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little attention has been paid to informal styles of the language. The variety described here, Colloquial Jakarta Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta. While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

A book written by an Iraqi about Iraq and Iraqis to make them comprehensible. It explains the diversity and the lingering antiquity that shape the country in simple terms and through facts and anecdotes. It looks at the occupation, the chaos and lawlessness that followed and their effect on the lives of people and individuals. It also provides a look into the "Triangle of Death" - one of the most volatile regions in the country - from the inside, showing some of the intricacies of tribal relations. But, above all, this book is about people. It aims to illustrate how ordinary people dealt with the traumatic situation, why civil war was so hard to ignite and why there is still hope. It may help the reader understand the failure to understand that led to failure.
