Beauty Meets Beast in San Francisco Accepting employment as a governess after hard times hit her family, medieval scholar Rosalind Hawkins is surprised when she learns that her mysterious employer has no children, no wife, and she is not to meet with him face to face. Instead, her duties are to read to him, through a speaking tube, from ancient manuscripts in obscure, nearly-forgotten dialects. A requirement for the job was skill in translating

medieval French, and she now understands the reason for that requirement, and assumes her unseen employer's interest in the descriptions of medieval spells and sorcery is that of an eccentric antiquary. What she does not realize is that his interest is anything but academic. He has a terrible secret and is desperately searching for something that can reverse the effects of the misfired spell which created his predicament. well. Even with Lock's homeship, Ashwina, at the head of the fleet, the Protectorate forces are adapting to their tactics. Before long, two devastating blows send the ragtag rebels on the run. But the greatest threat may come from within. Since the battle at Peris, Protectorate loyalist Isaac Sinder's determination to eliminate the rebel fleet has only intensified-along with his ambition. The Protectorate is decaying, and it's clear to Isaac that only he can save it, by any means necessary. As the situation worsens for the rebels, the strain begins to tell on everyone. But more than exhaustion grows within Adam. Something alien has started to change him. Lochlan fights to hold on, but even he may not be

able to follow Adam down the dark road ahead. As Isaac's obsession turns to insanity, it becomes evident that more sinister plans than his are at work. Bound together by threads of fate and chance, Adam and Lochlan turn their eyes toward a future that may tear them apart-if they're lucky enough to survive it at all.
