Over 1,300 total pages 14086A Electronics Technician, Volume 1 Safety and Administration "This is the first volume in the ET Training Series. Covers causes and prevention of mishaps, handling of hazardous materials; identifies the effects of electrical shock; purpose of the tag-out bill and personnel responsibilities, documents, and procedures associated with tag out; and identifies primary safety equipment associated with ET work. Provides an overview of general and technical administration and logistics. Included are descriptions of forms and procedures included in the Maintenance Data System (MDS) and publications that should be included in a ship's technical library. Also included is a basic description of the Naval Supply System and COSAL. This volume combines the previous ET volumes 1 & 2 and has been updated. 14087 ELECTRONICS TECHNICIAN, VOLUME 02--ADMINISTRATION OBSOLETE: no further enrollments allowed. Provides an overview of general and technical administration and logistics. Included are descriptions of forms and procedures included in the Maintenance Data System (MDS) and publications that should be included in a ship's technical library. Also included is a basic description of the Naval Supply System and COSAL. 14088 ELECTRONICS TECHNICIAN, VOLUME 03--COMMUNICATIONS SYSTEMS Provides operations-related information on Navy communications systems including SAS, TEMPEST, satellite communications, Links 11, 4-A, and 16, the C2P system, and a basic introduction to local area networks (LANs). 14089 ELECTRONICS TECHNICIAN, VOLUME 04--RADAR SYSTEMS Provides a basic introduction to air search, surface search, ground-controlled approach, and carrier controlled approach RADAR systems. Included are basic terms associated with RADAR systems, descriptions of equipment that compose the common systems, descriptions of RADAR interfacing procedures and equipment, and primary radar safety topics. 14090 ELECTRONICS TECHNICIAN, VOLUME 05--NAVIGATION SYSTEMS Introduces the primary navigation systems used by U.S. Navy surface vessels. It provides a basic introduction to and explanation of the Ship's Inertial Navigation System (SINS), the U.S. Navy Navigation Satellite System (NNSS), and the NAVSTAR Global Positioning System (GPS) and associated equipment. It then provides an introduction to and explanation of the Tactical Air Navigation system (TACAN) and its associated equipment. The information provided is written at an introductory level and is not intended to be used by technicians for diagnoses or repairs. 14091 ELECTRONICS TECHNICIAN, VOLUME 06--DIGITAL DATA SYSTEMS Covers the following subject matter on computers and peripherals: fundamentals and operations, configurations and hardware, operator controls and controlling units, components and circuits, central processing units and buses, memories, input/output and interfacing. instructions and man/machine interfaces, magnetic tape storage, magnetic disk storage, CD-ROM storage, printers, data conversion devices and switchboards. 14092 ELECTRONICS TECHNICIAN, VOLUME 07--ANTENNAS AND WAVE PROPAGATION Covers a basic introduction to antennas and wave propagation. It includes discussions about the effects of the atmosphere on rf communications, the various types of communications and radar antennas in use today, and a basic discussion of transmission lines and waveguide theory. 14093 ELECTRONICS TECHNICIAN, VOLUME 08--SUPPORT SYSTEMS Provides a basic introduction to support systems: liquid cooling, dry air, ac power distribution, ship's input, and information transfer. It includes discussions on configuration, operation and maintenance of these systems.

In the bestselling tradition of Indianapolis and In Harm’s Way comes a “captivating...gripping” (Kirkus Reviews, starred review) account of the USS Plunkett—a US Navy destroyer that sustained the most harrowing attack on any Navy ship by the Germans during World War II, later made famous by John Ford and Herman Wouk. “A reflection on the nature of storytelling itself” (The Wall Street Journal), Unsinkable traces the individual journeys of five men on one ship from Casablanca in North Africa, to Sicily and Salerno in Italy and then on to Plunkett’s defining moment at Anzio, where a dozen-odd German bombers bore down on the ship in an assault so savage, so prolonged, and so deadly that one Navy commander was hard-pressed to think of another destroyer that had endured what Plunkett had. After a three-month overhaul and with a reputation rising as the “fightin’est ship” in the Navy, Plunkett (DD-431) plunged back into the war at Omaha Beach on D-Day, and again into battle during the invasion of Southern France—perhaps the only Navy ship to participate in every Allied invasion in the European theatre. Featuring five incredibly brave men—the indomitable skipper, who will receive the Navy Cross; the gunnery officer, who bucks the captain every step of the way to Anzio; a first lieutenant, who’s desperate to get off the ship and into the Pacific; a seventeen-year-old water tender, who’s trying to hold onto his hometown girl against all odds, and another water tender, who mans a 20mm gun when under aerial assault—the dramatic story of each plays out on the decks of the Plunkett as the ship’s story escalates on the stage of the Mediterranean. Based on Navy logs, war diaries, action reports, letters, journals, memoirs, and dozens of interviews with the men who were on the ship and their families, Unsinkable is a timeless evocation of young men stepping up to the defining experience of their lives. “If you were moved by Norman Maclean’s A River Runs Through It, by William Kent Krueger’s This Tender Land...by the values we hold dear, decency, sacrifice, steadfastness, then Unsinkable will take you to a place long dead in your soul, and flood it with light” (Doug Stanton, #1 New York Times bestselling author of Horse Soldiers).
