The lack of transparency in the military, and what later happened to many of those that volunteered to serve the United States is horrific. But with all the casualties, injuries, and failures, change to correct these errors can be made." CrashLaneNews.com's vision is to help travelers develop comprehensive plans for their own safety. The third novel in the Sianim series from the #1 New York Times bestselling author of the Mercy Thompson series and the Alpha and Omega novels... When Rialla was young, slave traders from Darran ambushed her clan, killing all the men and enslaving the women and children. For years, Rialla lived in bondage, serving her master while waiting for a chance to escape. When that chance came, she made the best of it—and fled to the mercenary nation of Sianim... Now she can strike back at her former masters. A lord in Darran seeks to outlaw slavery—but there are plots to kill him before he can. Rialla is chosen by the spymaster of Sianim to prevent the murder—and is plunged into a world of deadly magic, where gods walk in human form. Where her most trusted companions are not what they claim. And where Rialla could be enslaved again...

This companion volume to The Atlas of Breeding Birds of Britain and Ireland is derived from surveys of birds present in Britain and Ireland during the three winters, 1981/82, 1982/83 and 1983/84. The surveys were organised by the British Trust for Ornithology and the Irish Wildbird Conservancy, as were the earlier breeding birds surveys. The Winter Atlas maps 200 species, 192 of which have full-page two-colour maps faced by a page of text. The texts (written by over 100 specialists) comment on the survey results, the species generally and the distribution and abundance as mapped. In addition there are introductory chapters on the maps, the weather in the three winters, bird patterns and movements; and appendices describing the planning, organisation, field methods, and processing of the survey data from record cards to computer output and maps. A team of 23 artists, led by Robert Gillmor, has provided the line drawings which head the species accounts. This is a print-on-demand edition of the Atlas. It is a black and white reproduction of the original two-colour book.

Likened to a 48 Laws of Power for young Black men, this book presents Black biographies, history, and current events in a language that the Hip-Hop generation will understand and relate to. Each story or essay is framed within the context of a life lesson, each one being of vital importance to the survival, redemption, and ultimate success of our dying Black generation. Both the positive and negative sides of the Black experience are explored in detail, from the lives of infamous drug dealers and pimps to the exploits of Black revolutionaries and activists. In addition, several How To sections outline simple strategies for self-development. Packed with useful information, from the best way to handle confrontations with police, to the continuing relevance of the 1919 race riots, this book has been compared to an urban Encyclopedia Africana. Others have called it a Blueprint for Black Power for a generation struggling with materialism and short attention spans. This book is guaranteed to change the world by changing the way millions of people think and live. In How to Hustle and Win, author Supreme Understanding tells, in often graphic detail, stories like that of the infamous Philadelphia Black Mafia, Harlem's heroin kingpin Frank Lucas, and former gang leader Stanley "Tookie" Williams. In between and throughout these tales, he weaves life lessons and guidance, turning sordid stories of crime and urban despair into an educational experience. Whereas Robert Greene's bestselling 48 Laws of Power used iconic figures from classical history to illustrate the guidelines for personal success, How to Hustle and Win is filled with the exploits of rappers, gangsters, radicals, and revolutionaries. This is a new kind of Black history book, and its intent is the

motivation and achievement of a new kind of reader. Although today's literary market has seen an influx of self-help books attending to a variety of issues, few books have attempted to address the concerns of young Black men, struggling to find direction. It is this group that author Supreme Understanding names as one of most troubled demographics in American society today. On the book's website, the author comments: "Unfortunately, few authors actively target this audience, and those who do are either not speaking their language, or not interested in pushing for change. This is why How to Hustle and Win was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world." Revolutionary aspirations aside, How to Hustle and Win's groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and misdirection with his later years of professional success, including obtaining a doctorate in education at the age of 26.

"Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter..The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --Library Journal "The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny." -City Pages (Minneapolis) Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in addition to the original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart. "St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers, land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."

"Who are you? Are you the police? This isn't legal, you know. You can't hold me like this." In a near-future dystopian Britain, democracy has been undermined. Emboldened by new anti-terrorism laws, police start to "disappear" people from the streets for unspecified crimes. But when unassuming dentist Arthur Priestley is snatched and held prisoner at a top-secret facility, his estranged wife, Julia, and a brave but naive journalist named Tom Clarke embark on a harrowing quest for the truth. Following a trail that leads to the very top of government, they soon find themselves fighting for their lives. Well-crafted, fast-paced, and totally compelling, *The Facility* is a brilliant thriller that resonates eerily with the timbre of our times.

This book constitutes the refereed proceedings of the Second International Symposium on Intelligent Data Analysis, IDA-97, held in London, UK, in August 1997.
