Operating System Questions and Answers - Sanfoundry

A. An operating system (OS) is a collection of software. B. The operating system is a vital component of the system software in a computer system. C. An Operating System (OS) is an interface between a computer user and computer hardware. D. All of the above. View Answer

Operating System MCQ Questions & Answers - Letsfindcourse

1) Explain the main purpose of an operating system? Operating systems exist for two main purposes. One is that it is designed to make sure a computer system performs well by managing its computational activities. Another is that it provides an environment for the development and execution of programs. 2) What is demand paging?

Top 50 Operating System Interview Questions & Answers

These selected questions and answers are prepared from Operating Systems Exam point of view and will also help in quick revision to get good marks in Operating Systems Examination. These questions has been prepared for the computer science graduates (B.C.A, M.C.A, B.Tech, B.E. and so...), to help them understand and revise the basic to advanced concepts related to Operating System.

OS Exams Questions and Answers - Tutorialspoint

Logical extension of multiprogramming operating system is; a.time sharing b.multi-tasking c.single programming d.both a and b. Answer: (d) Multiprocessor system have advantage of; a.Increased Throughput b.Expensive hardware c.operating system d.both a and b. Answer: C. Scheduling of threads are done by; a.input b.output c.operating system d.memory. Answer: C.

Operating System MCQ Questions and Answer - Operating System

Operating System Questions & Answers – Processes This set of Operating System Multiple Choice Questions & Answers (MCQs) focuses on “Processes”. In operating system, each process has its own _____ a) address space and global variables b) open files c) pending alarms, signals and signal handlers d) all of the mentioned

Operating System Questions & Answers[MCQ] – Processes ...

Operating Systems Sample Exam Questions and Answers Tommy Sailing 1. Describe the two general roles of an operating system, and elaborate why these roles are important. The first general role of an operating system is to provide an ABSTRACTION layer for software to run on a machine without needing to know hardware-specific implementation details.

Operating Systems Sample Exam Questions and Answers

Below are the 10 important OS Interview Questions And Answers that are frequently asked in an interview. these questions are divided into two parts are as follows: Part 1 – OS Interview Questions (Basic) This first part covers basic OS Interview Questions and Answers. 1. Explain the Bootstrap program and the process to boot the system. Answer:

Top 10 Useful Operating System Interview Questions and ...

Answer: Generally, operating systems for batch systems have simpler requirements than for personal computers. Batch systems do not have to be concerned with interacting with a user as much as a personal computer. As a result, an operating system for a PC must be concerned with response time for an interactive user.

Operating System (OS) Questions & Answers

Operating System MCQ Question with Answer Operating System MCQ with detailed explanation for interview, entrance and competitive exams. Explanation are given for understanding.

Operating System MCQ Question with Answer | PDF Download ...

Operating System Questions & Answers What is the "critical region" in an Operating System (OS)? The answer to this is A. There are times when people would be pressing to open one program several times when the program can only be opened one at a time.

72 Operating System Quizzes Online, Trivia, Questions ...

OPERATING SYSTEM Multiple Choice Questions :-1. If there are multiple recycle bin for a hard disk, a. you can set different size for each recycle bin b. you can choose which recycle bin to use to store your deleted files c. You can make any one of them default recycle bin d. None of above. 2. Identify false statement. a. You can find deleted files in recycle bin

300+ TOP OPERATING SYSTEM MCQs Pdf with Answers 2020

74 Operating System (OS) Questions and Answers: 1 : What is the OPERATING SYSTEM? An Operating System, or OS, is a software program that enables the computer hardware to communicate and operate with the computer software.

74 Operating System (OS) Interview Questions and Answers

Multiple choice questions on Operating System topic Introduction to Operating Systems. Practice these MCQ questions and answers for preparation of various competitive and entrance exams. A directory of Objective Type Questions covering all the Computer Science subjects.

Operating System Multiple Choice Questions and Answers ...

1) What is an operating system? The operating system is a software program that facilitates computer hardware to communicate and operate with the computer software. It is the most important part of a computer system without it computer is just like a box. 2) What is the main purpose of an operating system?

Top 39 Operating System Interview Questions – javatpoint

This set of Operating System Multiple Choice Questions & Answers (MCQs) focuses on "Basics". 1. What is operating system? a) collection of programs that manages hardware resources b) system service provider to the application programs c) link to interface the hardware and application programs d) all of the mentioned 2. To access the services of Read More..

3000 Operating System MCQs | Quiz

Answer: B. 2.Operating system is also known as. A. Printer B. Database C. Hardware D. System software. Answer: D. 3. A computer cannot "boot" if it does not have the. A. loader B. assembler C. compiler D. operating system. Answer: D. 4.What is the most important type of system software in a computer system? A. Tally B. Operating System C ...

Operating System MCQ Questions and Answer - Operating System

The solution is also provided with each Operating System question and there are mock tests available for fine preparation. Operating System aptitude is one of the most important areas in a company recruitment test paper. latest Operating System aptitude questions and answers, basic Operating System questions and answers.

Operating System Questions and Answers | Practice ...

The contenders can get the Operating System Questions from the topics like Deadlocks, RAID, Security, Virtual Memory, CPU Scheduling, Memory Management, Processes, Semaphores, and Threads, etc. So, all the aspirants need to check the Operating System Online Test and learn all the questions and answers.

Operating Systems Multiple Choice Questions and Answers (MCQs): Quizzes & Practice Tests with Answer Key PDF. Operating Systems Worksheets & Quick Study Guide covers exam review worksheets to solve problems with 550 solved MCQs. "Operating Systems MCQ" PDF with answers covers concepts, theory and analytical assessment tests. "Operating Systems Quiz" PDF book helps to practice test questions from exam prep notes. Computer science study guide provides 550 verbal, quantitative, & analytical reasoning solved past question papers MCQs. Operating Systems Multiple Choice Questions and Answers PDF download, a book covers solved quiz questions and answers on chapters: Computer system overview, concurrency deadlock and starvation, concurrency mutual exclusion and synchronization, introduction to operating systems, operating system overview, process description and control, system structures, threads, SMP and microkernels worksheets for college and university revision guide. "Operating systems Quiz Questions and Answers" PDF download with free sample test covers beginner's questions and mock tests with exam workbook answer key. Operating systems MCQs book, a quick study guide from textbooks and lecture notes provides exam practice tests. "Operating systems Worksheets" PDF book with answers covers problem solving in self-assessment workbook from computer science textbooks with past papers worksheets as: Worksheet 1: Computer System Overview MCQs Worksheet 2: Concurrency Deadlock and Starvation MCQs Worksheet 3: Concurrency Mutual Exclusion and Synchronization MCQs Worksheet 4: Introduction to Operating Systems MCQs Worksheet 5: Operating System Overview MCQs Worksheet 6: Process Description and Control MCQs Worksheet 7: System Structures MCQs Worksheet 8: Threads, SMP and Microkernels MCQs Practice Computer System Overview MCQ PDF with answers to solve MCQ test questions: Basic elements, cache design, cache principles, control and status registers, input output and communication techniques, instruction execution, interrupts, processor registers, and user visible registers. Practice Concurrency Deadlock and Starvation MCQ PDF with answers to solve MCQ test questions: Concurrency deadlock, starvation, deadlock avoidance, deadlock detection, deadlock prevention, an integrated deadlock strategy, circular wait, consumable resources, dining philosophers problem, Linux process and thread management, resource allocation, and ownership. Practice Concurrency Mutual Exclusion and Synchronization MCQ PDF with answers to solve MCQ test questions: Mutual exclusion, principles of concurrency, addressing, concurrency deadlock and starvation, input output and internet management, message format, message passing, monitor with signal. Practice Introduction to Operating Systems MCQ PDF with answers to solve MCQ test questions: Evolution of operating systems, operating system objectives and functions, Linux operating system, development leading to modern operating system, major achievements in OS, Microsoft windows overview, traditional Unix system, and what is process test. Practice Process Description and Control MCQ PDF with answers to solve MCQ test questions: Process description, process control structure, process states, creation and termination of processes, five state process model, modes of execution, security issues, two state process model, and what is process test. Practice System Structures MCQ PDF with answers to solve MCQ test questions: Operating system services, system calls in operating system, types of system calls, and user operating system interface. Practice Threads, SMP and Microkernels MCQ PDF with answers to solve MCQ test questions: Threads, SMP and microkernels, thread states, user level threads, windows threads, SMP management, asynchronous processing, input output and internet management, inter-process communication, interrupts, multithreading, kernel level threads, Linux process and thread management, low level memory management, microkernel architecture, microkernel design, modular program execution, multiprocessor operating system design, process and thread object, process structure, resource allocation and ownership, symmetric multiprocessing, and symmetric multiprocessors SMP architecture.

Top 50 Operating System Interview Questions This book contains Operating System interview questions that an interviewer asks. It is a compilation of easy to advanced Operating System interview questions after attending dozens of technical interviews in top-notch companies like- Oracle, Cisco, IBM, etc. Each question is accompanied with an answer so that you can prepare for job interview in short time. Often, these questions and concepts are used in our daily programming work. But these are most helpful when an Interviewer is trying to test your deep knowledge of Operating System concepts. How will this book help me? By reading this book, you do not have to spend time searching the Internet for Operating System interview questions. We have already compiled the list of the most popular and the latest Operating System Interview questions. Are there answers in this book? Yes, in this book each question is followed by an answer. So you can save time in interview preparation. What is the best way of reading this book? You have to first do a slow reading of all the questions in this book. Once you go through them in the first pass, mark the questions that you could not answer by yourself. Then, in second pass go through only the difficult questions. After going through this book 2-3 times, you will be well prepared to face a technical interview for Software Engineer position in Operating System. What is the level of questions in this book? This book contains questions that are good for a Associate Software engineer to a Principal Software engineer. The difficulty level of question varies in the book from a Fresher to an Experienced professional. What are the sample questions in this book? What is a Real time system? What is Virtual memory in OS? What is multi processing in OS? What is a Time sharing system? What is a Thread in OS? What are the advantages of multi-threaded programming? What is FCFS in OS? What is Round Robin scheduling algorithm in OS? What is a Deadlock in OS? What are the necessary conditions for Deadlock to occur? What is Banker

By staying current, remaining relevant, and adapting to emerging course needs, Operating System Concepts by Abraham Silberschatz, Peter Baer Galvin and Greg Gagne has defined the operating systems course through nine editions. This second edition of the Essentials version is based on the recent ninth edition of the original text. Operating System Concepts Essentials comprises a subset of chapters of the ninth edition for professors who want a shorter text and do not cover all the topics in the ninth edition. The new second edition of Essentials will be available as an ebook at a very attractive price for students. The ebook will have live links for the bibliography, cross-references between sections and chapters where appropriate, and new chapter review questions. A two-color printed version is also available.

Our 1500+ Operating Systems questions and answers focuses on all areas of Operating Systems subject covering 100+ topics in Operating Systems. These topics are chosen from a collection of most authoritative and best reference books on Operating Systems. One should spend 1 hour daily for 15 days to learn and assimilate Operating Systems comprehensively. This way of systematic learning will prepare anyone easily towards Operating Systems interviews, online tests, examinations and certifications. You can watch basic Operating Systems video lectures by visiting our YouTube channel IT EXAM GURUJI. Highlights ----- ? 1500+ Basic and Hard Core High level Multiple Choice Questions & Answers in Operating Systems with explanations. ? Prepare anyone easily towards Operating Systems interviews, online tests, Government Examinations and certifications. ? Every MCQ set focuses on a specific topic in Operating Systems. Who should Practice these Operating Systems Questions? ? Anyone wishing to sharpen their skills in Operating Systems. ? Anyone preparing for aptitude test in Operating Systems. ? Anyone preparing for interviews (campus/off-campus interviews, walk-in interview & company interviews) ? Anyone preparing for entrance examinations and other competitive examinations. ? All – Experienced, Freshers and Students. Inside ----- Operating System Basics -----21 Process Structures-----43 The Classic Synchronization Problems-----23 CPU Scheduling-----46 Monitors-----26 CPU Scheduling Benefits-----49 Atomic Transactions-----51 Deadlock-----31 CPU Scheduling Algorithms I -----54 Deadlock Prevention-----34 Critical Section (CS) Problem and Solutions-----37 Semaphores I -----59 Deadlock Detection-----39 Calls-----159 Page Replacement Algorithms – I -----162 Page Replacement Algorithms – II-----180 File System Interface Directory Structure – I-----182 File System Interface Directory Structure – II-----185 File System Interface Mounting and Sharing-----188 File System Interface Protection-----191 File System ImplementationAllocation Methods – I-----194 File System Implementation–Allocation Methods – II-----197 File System Implementation–Allocation Methods – III-----200 File System Implementation – Performance-----203 File System Implementation – Recovery-----205 File System Implementation – Network File System – I-----207 File System Implementation – Network File System – II-----209 I/O Subsystem-----211 Disk Scheduling – I-----231 Protection Concepts-----213 Disk Scheduling – II-----235 Security-----215 Disk Management-----218 Swap Space Management-----219 Security – User Authentication-----122 Security – Program and System Threats-----125 Security – Intrusion Detection-----129 Security – Intrusion Detection – Securing Systems and Facilities-----132 Security – Cryptography-----135 Secondary Storage-----137 Linux-----155 Virtual Memory-----139 Threads-----237 Memory Protection-----239 Protection – Revocation of Access Rights-----242 Distributed Operating System-----245 Types & Resource Sharing-----247 D-OS Network Structure & Topology-----250 Robustness of Distributed Systems-----252 Distributed File System – I-----254 Distributed File System – II-----256 Distributed File System – III-----258 Distributed Coordination-----260 Distributed Synchronization-----263

- This is the latest practice test to pass the 98-349 Microsoft Windows Operating System Fundamentals Exam. - It contains 210 Questions and Answers. - All the questions are 100% valid and stable. - You can reply on this practice test to pass the exam with a good mark and in the first attempt.

Operating Systems Multiple Choice Questions and Answers (MCQs): Operating systems quiz questions and answers with practice tests for online exam prep and job interview prep. Operating systems study guide with questions and answers about computer system overview, concurrency deadlock and starvation, concurrency mutual exclusion and synchronization, introduction to operating systems, operating system overview, process description and control, system structures, threads, SMP and microkernels. Operating systems trivia questions and answers to get prepare for career placement tests and job interview prep with answers key. Practice exam questions and answers about computer science, composed from operating systems textbooks on chapters: Computer System Overview Practice Test: 31 MCQs Concurrency Deadlock and Starvation Practice Test: 20 MCQs Concurrency Mutual Exclusion and Synchronization Practice Test: 21 MCQs Introduction to Operating Systems Practice Test: 200 MCQs Operating System Overview Practice Test: 57 MCQs Process Description and Control Practice Test: 34 MCQs System Structures Practice Test: 100 MCQs Threads, SMP and Microkernels Practice Test: 61 MCQs Operating system interview questions and answers on addressing in OS, an integrated deadlock strategy, asynchronous processing, basic elements, cache design, cache principles, circular wait, computer architecture, computer architecture and organization, computer system organization, concurrency deadlock and starvation, consumable resources, control and status registers, creation and termination of processes, deadlock avoidance, deadlock detection, deadlock prevention. Operating systems questions and answers on development leading to modern operating system, dining philosophers' problem, evolution of operating systems, five state process model, input output and communication techniques, input output and internet management, instruction execution, interprocess communication, interrupts, kernel level threads. Operating systems objective questions and answers on Linux operating system, Linux process and thread management, low level memory management, major achievements in OS, message format, message passing, microkernel architecture, microkernel design, Microsoft windows overview, modes of execution, modular program execution, monitor with signal, multiprocessor operating system design. Operating systems certifications prep questions on multithreading in OS, mutual exclusion, operating system objectives and functions, operating system operations, operating system services, operating system structure, principles of concurrency, process and thread object, process control structure, process description, process management, process states, process structure, processor registers, resource allocation and ownership, security issues, symmetric multiprocessing, symmetric multiprocessors SMP architecture, system calls in operating system, thread states, threads, SMP and microkernels, traditional Unix system, two state process model, types of system calls, user level threads, user operating system interface, user visible registers, what is process test, what operating system do, windows threads and SMP management, for competitive exams preparation.

This book titled "Basic Computer Knowledge Multiple Choice Questions and Answers (MCQs): Quizzes & Practice Tests with Answer Key" covers mock tests for competitive exams. This book can help to learn and practice Basic Computer Knowledge Quizzes as a quick study guide for placement test preparation. "Basic Computer Knowledge MCQs" will help with theoretical, conceptual, and analytical study for self-assessment, career tests. "Basic Computer Knowledge Multiple Choice Questions and Answers (MCQs)" pdf is a revision guide with a collection of trivia questions to fun quiz questions and answers pdf on topics: application software, applications of computers, basics of information technology, computer architecture, computer networks, data communication, data protection and copyrights, data storage, displaying and printing data, interacting with computer, internet fundamentals, internet technology, introduction to computer systems, operating systems, processing data, spreadsheet programs, windows operating system, word processing to enhance teaching and learning. Basic Computer Knowledge Quiz Questions and Answers pdf also covers the syllabus of many competitive papers for admission exams of different universities from computer science textbooks on chapters: Application Software Multiple Choice Questions: 100 MCQs, Applications of Computers Multiple Choice Questions: 29 MCQs Basics of Information Technology Multiple Choice Questions: 150 MCQs Computer Architecture Multiple Choice Questions: 93 MCQs Computer Networks Multiple Choice Questions: 72 MCQs Data Communication Multiple Choice Questions: 57 MCQs Data Protection and Copyrights Multiple Choice Questions: 50 MCQs Data Storage Multiple Choice Questions: 89 MCQs Displaying and Printing Data Multiple Choice Questions: 47 MCQs Interacting with Computer Multiple Choice Questions: 53 MCQs Internet Fundamentals Multiple Choice Questions: 55 MCQs Internet Technology Multiple Choice Questions: 85 MCQs Introduction to Computer Systems Multiple Choice Questions: 106 MCQs Operating Systems Multiple Choice Questions: 200 MCQs Spreadsheet Programs Multiple Choice Questions: 111 MCQs Spreadsheet Programs Multiple Choice Questions: 78 MCQs Windows Operating System Multiple Choice Questions: 60 MCQs Word Processing Multiple Choice Questions: 66 MCQs The chapter "Application Software MCQs" covers topics of application software, presentation basics, presentation programs, presentation slides, word processing elements, and word processing programs. The chapter "Applications of Computers MCQs" covers topics of computer applications, and uses of computers. The chapter "Basics of Information Technology MCQs" covers topics of introduction to information technology, IT revolution, cathode ray tube, character recognition devices, computer memory, computer mouse, computer plotters, computer printers, computer system software, memory devices, information system development, information types, input devices of computer, microphone, output devices, PC hardware and software, random access memory ram, read and write operations, Read Only Memory (ROM), Sequential Access Memory (SAM), static and dynamic memory devices, system software, video camera, and scanner. The chapter "Computer Architecture MCQs" covers topics of introduction to computer architecture, errors in architectures, arithmetic logic unit, bus networks, bus topology, central processing unit, computer languages, input output unit, main memory, memory instructions, motherboard, peripherals devices, Random Access Memory (RAM), Read Only Memory (ROM), and types of registers in computer. The chapter "Computer Networks MCQs" covers topics of introduction to computer networks, LAN and WAN networks, network and internet protocols, network topologies, bus topology, ring topology, star topology, dedicated server network, ISO and OSI models, networking software, and peer to peer network. The chapter "Data Communication MCQs" covers topics of introduction to data communication, data communication media, asynchronous and synchronous transmission, communication speed, modulation in networking, and transmission modes. The chapter "Data Protection and Copyrights MCQs" covers topics of computer viruses, viruses, anti-virus issues, data backup, data security, hardware, software and copyright laws, video camera, and scanner. The chapter "Data Storage MCQs" covers topics of measuring of data, storage device types, storage devices basics, measuring and improving drive performance, and storage devices files. The chapter "Displaying and Printing Data MCQs" covers topics of computer printing, computer monitor, data projector, and monitor pixels. The chapter "Interacting with Computer MCQs" covers topics of computer hardware, computer keyboard, audiovisual input devices, optical character recognition devices, optical input devices examples. The chapter "Internet Fundamentals MCQs" covers topics of introduction to internet, internet addresses, network of networks, computer basics, e-mail, and World Wide Web (WWW). The chapter "Internet Technology MCQs" covers topics of history of internet, internet programs, network and internet protocols, network of networks, File Transfer Protocol (FTP), online services, searching web sponsored versus non-sponsored links, using a metasearch engine, using Boolean operators in your searches, using e-mail, web based e-mail services, and World Wide Web (WWW). The chapter "Introduction to Computer Systems MCQs" covers topics of parts of computer system, computer data, computer for individual users, computer hardware, computer software and human life, computers and uses, computers in society, desktop computer, handheld pcs, mainframe computers, minicomputers, network servers, notebook computers, smart phones, storage devices and functions, supercomputers, tablet PCs, and workstations. The chapter "Operating Systems MCQs" covers topics of operating system basics, operating system processes, operating system structure, Linux operating system, operating system errors, backup utilities, different types of windows, Disk Operating System (DOS), DOS commands, DOS history, user interface commands, user interface concepts, user interfaces, and windows XP. The chapter "Processing Data MCQs" covers topics of microcomputer processor, microcomputer processor types, binary coded decimal, computer buses, computer memory, hexadecimal number system, machine code, number systems, octal number system, standard computer ports, text codes, and types of registers in computer. The chapter "Spreadsheet Programs MCQs" covers topics of spreadsheet programs basics, spreadsheet program cells, spreadsheet program functions, and spreadsheet program wizards. The chapter "Windows Operating System MCQs" covers topics of windows operating system, features of windows, window desktop basics, window desktop elements, window desktop types. The chapter "Word Processing MCQs" covers topics of word processing basics, word processing commands, word processing fonts, and word processing menu.

. 225 Operating System Interview Questions - 77 HR Interview Questions - Real life scenario based questions - Strategies to respond to interview questions - 2 Aptitude Tests Operating System Interview Questions You'll Most Likely Be Asked is a perfect companion to stand ahead above the rest in today's competitive job market. Rather than going through comprehensive, textbook-sized reference guides, this book includes only the information required immediately for job search to build an IT career. This book puts the interviewee in the driver's seat and helps them steer their way to impress the interviewer. Includes: a) 225 Operating System Interview Questions, Answers and Proven Strategies for getting hired as an IT professional b) Dozens of examples to respond to interview questions c) 77 HR Questions with Answers and Proven strategies to give specific, impressive, answers that help nail the interviews d) 2 Aptitude Tests download available on www.vibrantpublishers.com
