This book focuses on the tremendous shift in both economic growth and development progress taking place towards the Asia-Pacific Region. Each of the countries in the region has various concerns and challenges for its sustainable development, a common goal most of them are trying to achieve at the moment. Interestingly, sustainable development in the region may be critical for achieving sustainable development at the global level as well. With a limited mandate, the book covers some specific developmental issues of ‘the hot spots’ of APR that are regarded to be contributing to their

sustainable development. The book also looks at the formation and strengthening of some economic and financial initiatives with the potentials to affect growth and influence economic cooperation and integration of the countries in the region.

This book addresses the many avenues that are still left unexplored when it comes to our understanding of the First World War in the Low Countries. With the ongoing the centenary of the Great War, many events have been organized in the United Kingdom to commemorate its military events, its socio-political consequences, and its cultural legacy. Of these events, very few have paid attention to the fates of Belgium or the Netherlands, even though it was the invasion of Belgium in August 1914 that was the catalyst for Great Britain declaring war. The occupation of Belgium had long-term

consequences for its people, but much of the military and social history of the Western Front concentrates on northern France, and the Netherlands is largely forgotten as a nation affected by the First World War. By opening the field beyond the military and beyond the front, this collection explores the interdisciplinary and international nature of the Great War.

Researchers developed two scenarios to envision the future of mobility in China in 2030. Economic growth, the presence of constraints on vehicle ownership and driving, and environmental conditions differentiate the scenarios. By making potential long-term mobility futures more vivid, the team sought to help decisionmakers at different levels of government and in the private sector better anticipate and prepare for change.

"A major contribution to the study of global events in times of global media. Owning the Olympics tests the possibilities and limits of the concept of 'media events' by analyzing the mega-event of the information age: the Beijing Olympics. . . . A good read from cover to cover." —Guobin Yang, Associate Professor, Asian/Middle Eastern Cultures & Sociology, Barnard College, Columbia University From the moment they were announced, the Beijing Games were a major media event and the focus of intense scrutiny

and speculation. In contrast to earlier such events, however, the Beijing Games are also unfolding in a newly volatile global media environment that is no longer monopolized by broadcast media. The dramatic expansion of media outlets and the growth of mobile communications technology have changed the nature of media events, making it significantly more difficult to regulate them or control their meaning. This volatility is reflected in the multiple, well-publicized controversies characterizing the run-up to Beijing 2008. According to many Western commentators, the People's Republic of China seized the Olympics as an opportunity to reinvent itself as the "New China"---a global leader in economics, technology, and environmental issues, with an improving human-rights record. But China's maneuverings have also been hotly contested by diverse global voices, including prominent human-

rights advocates, all seeking to displace the official story of the Games. Bringing together a distinguished group of scholars from Chinese studies, human rights, media studies, law, and other fields, *Owning the Olympics* reveals how multiple entities---including the Chinese Communist Party itself---seek to influence and control the narratives through which the Beijing Games will be understood. digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication.
