Oscar the kitten finds a tractor in a field and, when he accidentally turns on the windshield wipers, Bird flies over to answer all his questions about

electricity.

Oscar is a curious kitten and when he finds a tractor in a field and accidentally sets the windscreen wiper going, he is full of questions about electricity. Luckily Bird is nearby and together they discuss switches, wires, batteries, circuits, power and safety.

Oscar is a curious kitten and when he finds a tractor in a field and accidentally sets the windscreen wiper going, he is full of questions about electricity. Luckily Bird is nearby and together they discuss switches, wires, batteries, circuits, power and safety.

An inspiring message for all ages: Find your inner bird. If you're looking for wisdom and joy in your life, go straight to Sesame Street and heed the words of its most beloved and profound resident, Carroll Spinney, who has spent the past thirty-four years in a bird costume (and a trash can) as Big Bird and Oscar the Grouch. Three decades inside a giant puppet have taught Spinney a valuable and surprising lesson: Being a bird can make you a better person. In *The Wisdom of Big Bird*, the living legend of Sesame Street describes how we can all find our inner bird (or grouch). Each chapter illustrates a piece of useful wisdom Spinney has gleaned from a career in feathers. The lessons Big Bird teaches children every day on Sesame Street are the same ones that have brought Spinney success and satisfaction in his own life. Warm, witty, and affirming, Carroll Spinney's memoir proves that being a bird can make you a better and happier person. "Every day on Sesame Street, we strive to give our innocent young audience the basis of a lifelong education. It is no accident that spending the past thirty-four years in the Bird suit teaching these lessons to others has taught me a few things, too."—from *The Wisdom of Big Bird (and the Dark Genius of Oscar the Grouch)*

Oscar is an adorably naive, googly-eyed kitten, filled with curiosity and wonder about his natural surroundings. In this series, he meets friends who introduce him to key science concepts. This time, Oscar learns about tadpoles, seeds, eggs, and what he'll grow into."

For use in schools and libraries only. When Oscar the kitten has questions about light and dark, Moth explains about different sources of light, how shadows are made, and why it gets dark at night.

When Oscar the kitten comes across a nest made of twigs and leaves, Snail explains why specific materials are chosen to do different jobs, where the materials come from, and what useful qualities they have.

Cricket shows Oscar the kitten how various objects need a push or a pull to move but animals can move themselves by using their muscles.

The book is set in the Tetons Mountains and begins with the newly hatched Oscar and his difficulty with relating to his parents, peers, and surroundings because of his unusual handicap. He not only suffers humiliation as a result of it but he faces serious limitations to his normal development and ultimately his ability to survive in the wild. It is about how he compensates for his handicap, the animals and dangers he encounters, and the fact that he is faced with how to survive the unfamiliar bitter cold and threatening winter world.
