A book concerning Russian Limousines, and the Chinese models that were initially derived from them, has never been attempted before. This book investigates the whole story of why the Soviet Communist Party required such a bourgeois product, and how production was subsequently achieved. Following the orders of Stalin, work on the Limousines commenced during the first Five Year Plan (1927-1933) at the Putilov Works, late the Kirov Zavod, where the Leningrad L-1 was made in a limited number. From these beginnings, the Moscow and Gorky models emerged, and later the Chinese-derived types made with Russian aid during the late 1950s. Covering all of these models, up to the last one produced in 2003, and featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of a previously neglected subject.

Like five books in one, Lemon-Aid Used Cars and Trucks is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.
