You learned the irregular superlative, ultimus,-a,-um in Chapter 26. Gallia ulterior is so called because it is on the other side of the Alps, from the Roman perspective.

Provides teachers and students alike with a modern, inviting and structured way to sustain interest and excellence in Latin. Based on the reading of original texts, the course is structured around a narrative detailing the life of the poet Horace, which helps students to develop an understanding of the times of Cicero and Augustus.

Used along side any Latin course, the Oxford Latin Reader will give students access to, and confidence with, a broad range of unadapted Latin texts. Helps make the transition from adapted Latin to unadapted texts Extracts are of a manageable length and a glossary of difficult vocabulary and usages aid students to approach the texts with confidence A historical timeline matches major events with the featured authors' lives The Teacher's Book provides full translations to save time as well as suggested questions and additional background information

Based on a detailed analysis of syntax, information structure and pragmatic organization, Left-dislocation in Republican Latin by Hilla Halla-aho examines how left-dislocation is used in republican Latin comedy, prose and inscriptions as a device to introduce topics.

Extensively field-tested and fine-tuned over many years, and designed specifically for a one-year course, JC McKeown's Classical Latin: An Introductory Course offers a thorough, fascinating, and playful grounding in Latin that combines the traditional grammatical method with the reading approach. In addition to grammar, paradigms, and readings, each chapter includes a variety of extraordinarily well-crafted exercises that reinforce the grammar and morphology while encouraging the joy of linguistic and cultural discovery.

The Latin Alive! Book One: Teacher's Edition includes a complete copy of the student text, as well as answer keys, extra teacher's notes and explanations, unit tests, and bonus projects and activities.

Thinking Spanish Translation is a comprehensive and revolutionary 20-week course in translation method with a challenging and entertaining approach to the acquisition of translation skills.

Introduction to Latin, Second Edition is an introductory Latin textbook designed with a streamlined flow that allows it to be completed in one year. Its concise and uncluttered approach gives students what they need to master the material. Grammar is integrated within the context of reading fluency. Innovative exercises provide translation practice as well as build " instinctive skills " that prepare students for reading authentic Latin works. Features: Concise, streamlined presentation focuses on what students need to know, allowing the material to be covered in a year, even for courses which meet only three days a week Innovative exercises that go beyond the usual translation practice, engaging students with the mechanisms of the language and developing " more instinctive " skills Succinct grammatical explanations that don ' t overwhelm the students with superfluous detail while also providing help for students with little or no understanding of English grammar Latin readings from ancient sources in the form of both sentences and short passages allow for students to connect with authentic Latin Practical instructions often overlooked by other textbooks, including reading a dictionary entry, reading strategies, sentence patterns, gapping, and expectations New to the Second Edition Revised order of presentation that spreads material out more evenly between the first and second halves of the book Derivatives exercises added at the end of each chapter providing practice connecting English words with their Latin roots Bridge to next level: final three chapters provide review and include longer narrative readings with minimal editing to bridge students to the next level of Latin Revised selection of readings for more appropriate level of difficulty

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics, whilst Part 2 introduces a wider range of grammatical forms and constructions, with a vocabulary of 435 words and reading material from Socrates and the Sophists to the world of myth, and finally to extended passages of lightly adapted Herodotus. Practice passages, exam papers and revision sentences for GCSE complete Part 2, which has a reference section covering the whole course. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Integrating theoretical perspectives with carefully grounded ethnographic analyses of everyday interaction and experience, Living Translation examines the worlds of international translators as well as U.S. teachers and students of Chinese medicine, focusing on the transformations that occur as participants engage in a "search for resonance" with foreign terms and concepts. Based on a close examination of heated international debates as well as specific texts, classroom discussions, and interviews with publishers, authors, teachers, and students, Sonya Pritzker demonstrates the "living translation" of Chinese medicine as a process unfolding through interaction, inscription, embodied experience, and clinical practice. By documenting the stream of conversations that together constitute this process, the book thus traces the translation of Chinese medicine from text to practice with an eye towards the social, political, historical, moral, and even personal dimensions involved in the transnational production of knowledge about health, illness, and the body.
