Bibhutibhushan Bandyopadhyay was one of the greatest writers in modern Bengali literature, best known for his autobiographical novel Pather Panchali, which, along with another of Bandyopadhyay's books, formed the basis for Satyajit Ray's classic Apu Trilogy. In this semi-autobiographical novel, Satyacharan is a young graduate in 1920s Calcutta, who, unable to find a job in the city, takes up the post of a 'manager' of a vast tract of forested land in neighboring Bihar. As he is increasingly enchanted and hypnotized by the exquisite beauty of nature, he is burdened with the painful task of clearing this land for cultivation. As ancient trees fall to the cultivator's axe, indigenous tribes--to whom the forest had been home for millennia--lose their ancient way of life. The promise of 'progress' and 'development' brings in streams of landless laborers, impoverished schoolmasters and starving boys from around the region, and the narrator chronicles in visionary prose the tale of destruction and dispossession that is the

universal saga of man's struggle to bend nature to his will. Written in 1937-39, and now available in English translation, Aranyak is an unforgettable account of hard lives in a place of vanishing beauty, preserved here for all time by a brilliant artist.

The volume addresses a neglected subject: secrecy and concealment as a means of creating identity and establishing social interaction. For the first time well known historians of mediterranean religions reveal the practical competence of notions of concealment and describe the fundamental differences between polytheistic and monotheistic systems.

Women have experienced significant changes in various spheres of their lives during the last decades as Bangladesh made economic progress. Yet women ' s economic engagement and empowerment are subdued, as they cannot make sufficient choices for themselves. This book provides a comprehensive analysis of the economic developments in gender equality in Bangladesh. Through examining women ' s participation in the labour force, ownership and control of household assets, use and control of financial assets, and opportunities for entrepreneurship, the authors have made concrete recommendations to overcome challenges that lie ahead for women ' s economic empowerment. This book is an important contribution to the knowledge on interventions required by the policy makers and broader stakeholders towards narrowing gender gaps. --Fahmida Khatun, PhD, Executive Director, Centre for Policy Dialogue (CPD), Bangladesh The women ' s story is central to Bangladesh ' s economic and social transformation. There is an urgent need to deepen researched understanding of the multidimensional pathways of women ' s economic empowerment and extent of real progress made. Voices to Choices is an important contribution to this story. Surely, the journey of women ' s economic empowerment remains a long and challenging one. Realizing the full benefits of new opportunities is often hampered by both new and entrenched insecurities. The task is as much one of empowering women ' s agency as of dismantling barriers. The responsibility is as much women ' s as society ' s. --Hossain Zillur Rahman, PhD, Executive Chairman, Power and Participation Research Centre (PPRC) This book provides critical insights and is timely, as it outlines how girls and women in Bangladesh have gained more opportunities in labor force participation, control over household and financial assets, as well as greater prospects for entrepreneurship. The findings will greatly contribute to future policy and planning for government and key stakeholders working to advance women ' s economic empowerment in the country. --Sabina Faiz Rashid, PhD, Dean and Professor, BRAC James P. Grant School of Public Health BRAC University

Daunted by the singular sexual tastes and dark secrets of the beautiful, tormented young entrepreneur Christian Grey, Anastasia Steele has broken off their relationship to start a new career with a Seattle publishing house.

About the Book Most of the entrepreneurs are those people who simply got tired of working for others, had a great idea which they wanted to commercialize, or woke up one day with an urgent desire to build wealth before they retired. So they took the big leap. The country's economic policy environment must

be favourable for organizations to achieve efficiencies in today's global market. It should enable the entrepreneurs to provide a magical touch to an organization, whether in public or private or joint sector, in achieving speed, flexibility, innovativeness, and a strong sense of self-determination. They bring a new vision to the forefront of economic growth of a country. The study of entrepreneurship has relevance today, not only because it helps entrepreneurs better to fulfil their personal needs but because of the economic contribution of the new ventures. More than increasing national income by creating new jobs, entrepreneurship acts as a positive force in economic growth by serving as the bridge between innovation and market place.
