About Pearson. Learning isn't a destination, starting and stopping at the classroom door. It's a never-ending road of discovery, challenge, inspiration, and wonder. For many people, learning is the route to a job to support their family, or to the skills that will help them progress in their career. For others, it's simply a passion for discovery. Whether it's at home, in the classroom or in the workplace, learning is the key to improving our life chances.

A fundamental source of information in agricultural education, this book is extremely reader-friendly and organized into specific, short topics within broad general sections. Its coverage encompasses the skills needed to be competitive in today's industry, and emphasizes the need for possessing a healthy balance between understanding the scientific principles of dairy science and the practical art of implementing those principles. A nine-part organization covers the dairy industry, genetic improvement, dairy nutrition, dairy feeds, reproductive physiology, lactation physiology, dairy health and disease, dairy cow comfort, and integrating disciplines: dairy management systems. For individuals interested in the agricultural field.

The claim that God is timeless has been the majority view throughout church history. However, it is not obvious that divine timelessness is compatible with fundamental Christian doctrines such as creation and incarnation. Theologians have long been aware of the conflict between divine timelessness and Christian doctrine, and various solutions to these conflicts have been developed. In contemporary thought, it is widely agreed that new theories on the nature of time can further help solve these conflicts. Do these solutions actually solve

Since the concept of 'multi-sited' approaches in ethnography developed over fifteen years ago, it has attracted a growing number of researchers across the social sciences. This volume examines the evolution of the concept as well as the problems and possibilities multi-sited approaches have presented to researchers.

This collection of essays explores educational issues confronting educators and researchers from various disciplines. They are grouped into four sections, with the first, "Business Economics and Management", discussing concepts such as contemporary urban theories, multiculturalism and the informal economy. The second section, "Linguistics and Literature", encompasses topics such as Russian-Chinese bilingualism and training in Russian phraseology for foreigners. The third section, "Education" considers issues such as language teaching and use of learning cycle model and the Socratic Seminar Technique. The fourth section, "History and Geography", looks at history education, historical consciousness, and cultural geography. This book will mainly appeal to educators, researchers, and students involved in social sciences.

This title was first published in 2000. Linking politics with culture and society, this collection provides an overview of the Scottish Parliament and analyzes it in relation to UK, European and global regionalization.

For more than five decades, Sears and Zemansky's College Physics has provided the most reliable foundation of physics education for students around the world. The Ninth Edition continues that tradition with new features that directly address the demands on today's student and today's classroom. A broad and thorough introduction to physics, this new edition maintains its highly respected, traditional approach while implementing some new solutions to student difficulties. Many ideas stemming from educational research help students develop greater confidence in solving problems, deepen conceptual understanding, and strengthen quantitative-reasoning skills, while helping them connect what they learn with their other courses and the changing world around them. Math review has been expanded to encompass a full chapter, complete with end-of-chapter questions, and in each chapter biomedical applications and problems have been added along with a set of MCAT-style passage problems. Media resources have been strengthened and linked to the Pearson eText, MasteringPhysics(r), and much more. This package
