Holbox, a small Mexican island, the perfect setting for a getaway. A European secret service agent, tired of dirty wars, decides to disappear with 2 million dollars of his agency's money that was earmarked to buy weapons for armed mercenaries in a covert operation. Two years later he allows himself to be discovered by a former colleague: the story tells of their encounter, their reasons, their doubts.

The Advance Variation is the most ambitious way to meet the solid French Defence. Its popularity among club players is not difficult to understand: White not only gains space but also blocks in Black's c8

Bishop and hampers Black's kingside development. Grandmaster Evgeny Sveshnikov has played the Advance Variation in countless games with excellent results and is, as former World Champion Anatoly Karpov puts it, 'the world expert' in this variation. Together with his son, International Master Vladimir Sveshnikov, he has thoroughly updated and expanded his earlier investigations, and they have found many new ideas and resources. The Sveshnikovs clearly explain the ideas and plans for both sides and provide exercises and test positions. After reading and studying this book, White players, from amateurs to Grandmasters, will make their opponents' lives even more difficult.

This is a memoir with a difference, Its author, Air Marshal Sir Peter Horsley,

was deprived in his earliest years of both parents. The youngest by several years of a family of seven, he has what he himself describes as 'a miserable start'. Though given a traditional middle-class upbringing through the generosity of relations, his restless spirit led him to leave school and go to sea, living a tough life as a cross between a cadet and a deck hand before escaping once again- on this occasion to join the Royal Air Force on the outbreak of war in 1939. While Peter Horsley's career in the RAF necessarily forms much of the backcloth to his story there is so much more here besides. He sees his life as a house, each room of which marks an incident or period of such intensity that it altered his whole pattern of life thereafter. The corridors between those rooms mark the passage of

time. Some of the incidents he describes brought him into great danger and very close to death- as when he survived three days and nights adrift in a rubber dinghy in storm force conditions, having been shot down during a night on the Cherbourg Peninsular and, much more recently, when he and his car were used as the innocent tools in a terrorist gang to bring about the murder of a former officer of the Special Air Service. Others had a deep effect for quite different reasons- such as the seven years in the personal service of Her Majesty the Queen and HRH Prince Philip as Equerry, or his intriguing encounters with psychic phenomena, all true but described in town-to-earth terms which make no attempt to explain the inexplicable. Peter Horsley is an intensely human

and sympathetic man and his writing contains many passages of great sensitivity. His description of the storm which so very nearly cost him his life must stand as a classic amongst Second World War stories.

Cats may have intelligence that far exceeds our own... but it doesn't stop them getting completely stuck, often in the most ridiculous places. Cats Getting Stuck documents some of the funniest scrapes felines have got themselves into, from wrestling with hangers to getting wedged into glass jars, or the results of overambitious climbing! But whenever they're caught with their paws in a twist, they style it out as though they WANTED to get tangled up in some window blinds. We can but stand back and laugh (then untangle them).

all to buy the Gray Whale Inn, a quaint bed and breakfast on Cranberry Island. She adores whipping up buttery muffins and other rich breakfast treats for her guests until Bernard Katz checks in. The overbearing land developer plans to build a resort next door where an endangered colony of black-chinned terns is nesting. Worried about the birds, the inevitable transformation of the sleepy fishing community, and her livelihood, Natalie takes a public stand against the project. But the town board sides with Katz. Just when it seems like things can't get any worse, Natalie finds Katz dead. Now the police and much of the town think she's guilty. Can Natalie track down the true killer before she's hauled off to jail...or becomes the next victim? Murder on the Rocks is an Agatha Award

Thirteen Full-length GMAT Math Tests! The GMAT math section is not easy. There is no quick fix that will allow you to "beat" the section. But GMAT math is very learnable. If you study hard and master the techniques in this book, your math score will improve--significantly! The GMAT cannot be "beaten." But it can be mastered--through hard work, analytical thought, and by training yourself to think like a test writer. Many of the problems in this book are designed to prompt you to think like a test writer. For example, you will find "Duals." These are pairs of similar problems in which only one property is different. They illustrate the process of creating GMAT questions. * If your target is a 700+ score, this is the book!
