The Contemporary Piano Literature series includes a selection of music written for children by Bartók, Gretchaninov, Kabalevsky, Prokofiev, Scott, Shostakovich and Stravinsky. In addition, the books contain pieces composed specifically for this series by Ross Lee Finney, David Kraehenbuehl, Douglas Moore, Elie Siegmeister, Alexandre Tansman and Alexander Tcherepnin. Short biographies and portraits help make composers come alive for the student. None of the music is so far in the vanguard that it is difficult to enjoy or understand.

A paranormal rollercoaster ride with goosebumps at every turn--now a motion picture starring Uma Thurman and Anna Sophia Robb! Kit Gordy sees Blackwood Hall towering over black iron gates, and she can't help thinking, This place is evil. The imposing mansion sends a shiver of fear through her. But Kit settles into a routine, trying to ignore the rumors that the highly exclusive boarding school is haunted. Then her classmates begin to show

extraordinary and unknown talents. The strange dreams, the voices, the lost letters to family and friends, all become overshadowed by the magic around them. When Kit and her friends realize that Blackwood isn't what it claims to be, it might be too late.

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology." DARK END OF SPECTRUM will make you think twice before turning on your cell phone or PDA! DARK END OF THE SPECTRUM is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture. DARK END OF THE SPECTRUM is a thriller that will connect with everyone with a cell phone, PDA or wireless device. When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum - bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses, ICER destroys most of the downed aircraft in airports all over the country. When ICER sends a pulse that will kill millions on the East Coast, only security expert Dan Riker can stop them, but ICER has kidnapped Dan's family. Will Dan save his family or will millions die?

Once upon a time Eddie played concert piano to

reverent audiences at Carnegie Hall. Now he bangs out honky-tonk for drunks in a dive in Philadelphia. But then two people walk into Eddie's life--the first promising Eddie a future, the other dragging him back into a treacherous past. *Shoot the Piano Player* is a bittersweet and nerve-racking exploration of different kinds of loyalty: the kind a man owes his family, no matter how bad that family is; the kind a man owes a woman; and, ultimately, the loyalty he owes himself. The result is a moody thriller that, like the best hard-boiled fiction, carries a moral depth charge.

"Creative Music has developed a revolutionary method enabling keyboard musicians to quickly harmonize a line of notes with infinite chord changes. Imagine being able to play a different chord on every melody note! The system is such that no two musicians will come up with the same resulting harmonization."--P. [4] of cover.
