This satisfying story explores the powerful impact of our actions on the world around us. When his father takes a new job in Massachusetts, Ben Moroney must leave behind his best friend Tony, a western banded gecko named Lenny, and worst of all, the Arizona desert home he has loved and explored. Ben's adjustment to his new environment is not going well until he unexpectedly finds a kindred spirit in his eccentric fifth-grade science teacher, Mrs Tibbets. She introduces him to the rare and elusive Eastern spadefoot toads that make their home on her rural property. When Ben discovers that Mrs. Tibbets's land may be sold to developers, he knows he has to do something. As Ben's obsession with saving the spadefoot toads' habitat grows, his schoolwork and his relationships with his family and new friends suffer. But just when it seems things can't get any worse, Ben finds a way to meet his responsibilities to the people around him and demonstrates the importance of even the smallest efforts to save the earth's rapidly disappearing habitats. With great environmental themes, this appealing middle grade novel comes from renowned storyteller and two-time Grammy Award winner Bill Harley.

Untamable. Damaged. Angry. Once full of promise and life, now a fiery knot of resentment and detachment. This is the story of Dream of Night, an injured and abused racehorse. It's also the story of Shiloh, a sarcastic eleven-year-old foster child. By chance, Dream of Night and Shiloh both find themselves under the care of Jessalyn DiLima. Just in time—it's a last chance for them both. Jess fosters animals and kids like Dream of Night and Shiloh for a reason—she's a little broken, too. And as the three of them become an unlikely family, they recognize their similarities in order to heal their pasts—but not before one last tragedy threatens to take everything away.

Perfect for fans of the New York Times bestselling novel, *Love & Gelato* by Jenna Evans Welch It's no one's fault that Hallie Jacob is alone. That her grandpa got sick half a world away and so her parents yanked her to Colorado the last semester of her senior year. That career-wise, she's specialized in fighting fire, and now she's surrounded by ice, snow, and a thousand cousins she's half-banned from hanging around with. But that's what's happened. That's what her December looks like. On one big family weekend in the freaking tundra, Hallie sneaks off with those cousins to an abandoned ski slope. But they get caught in a random mudslide, and what started as a Secret Bonfire Party goes in a Potential Donner Party direction real fast. With some cousins in desperate need of medical attention, Hallie leaves their camp for help—and is surprised when Jonah Ramirez (her cousin's extremely off-limits—absurdly hot—best friend) joins her. Facing paralyzing temperatures, sharp-toothed animals strong enough to survive a climate with hardly any water or air, and weather phenomena so wicked they'll wreck a mountain before you can blink, Jonah and Hallie have no choice but to trust each other as they search for the way to town to send help back to their stranded friends and family. And THAT may be more impossible, even, than making it out alive.

Behind the walls of their defended enclave, Lauren's father, a preacher, and a handful of other citizens try to salvage what remains of a culture that has been destroyed by drugs, disease, war, and chronic water shortages. While her father tries to lead people on the righteous path, Lauren struggles with hyperempathy, a condition that makes her extraordinarily sensitive to the pain of others. When fire destroys their compound, Lauren's family is killed and she is forced out into a world that is fraught with danger. With a handful of other refugees, Lauren must make her way north to safety, along the way conceiving a revolutionary idea that may mean salvation for all mankind. Based on Evan Wright's National Magazine Award-winning story in *Rolling Stone*, this is the raw, firsthand account of the 2003 Iraq invasion that inspired the HBO® original mini-series. Within hours of 9/11, America's war on terrorism fell to those like the twenty-three Marines of the First Recon Battalion, the first generation dispatched into open-ended combat since Vietnam. They were a new pop-culture breed of American warrior unrecognizable to their forebears—soldiers raised on hip hop, video games and *The Real World*. Cocky, brave, headstrong, wary and mostly unprepared for the physical, emotional and moral horrors ahead, the “First Suicide Battalion” would spearhead the blitzkrieg on Iraq, and fight against the hardest resistance Saddam had to offer. Hailed as “one of the best books to come out of the Iraq war” (*Financial Times*), *Generation Kill* is the funny, frightening, and profane firsthand account of these remarkable men, of the personal toll of victory, and of the randomness, brutality and camaraderie of a new American War.
