Research methods are specific procedures for collecting and analyzing data. Developing your research methods is an integral part of your research design. When planning your methods, there are two key decisions you will make. First, decide how you will collect data.

Research Methods | Definitions, Types, Examples

Descriptive research is a research method that you can use to describe the characteristics of the variables that you are studying, such as events, organizations, individuals, etc. Learn more about it by examining the downloadable examples that we gathered in this article.

Provides guidelines and examples for handling research, outlining, spelling, punctuation, formatting, and documentation.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' – Irish Times

Provides information on stylistic aspects of research papers, theses, and dissertations, including sections on writing fundamentals, MLA documentation style, and copyright law.

In this new book, you will learn tips for formatting your research paper, as well as how to complete a cohesive, well-structured assignment for any college course. The College Student's Guide to Writing a Great Research Paper will walk you through the entire process of writing a research paper, from choosing a topic, to conducting your research, to writing and editing each draft of the assignment. You will learn how to properly use the library, as well as tricks for finding relevant and credible articles, books, and online sources. This comprehensive guide then takes you a step further, with information on how to check your work for plagiarism and eliminate it from your paper altogether as you learn how to use your research as a source to support your thesis. Filled with tips for finding reputable sources and conducting research efficiently, even English majors will find this guide useful in defining a focused thesis and developing it throughout an entire paper, regardless of the required word count. Using the step-by-step instructions and writing guidelines offered in this book, you will learn how to manage your time while simultaneously mastering the basics-choosing a unique topic, taking notes from your research and incorporating them into your writing, and citing sources in MLA or APA style (or style laid out by other reference manuals). Get your creative juices flowing with our list of prompts, or compare your work or outline to samples from real research papers; then polish your paper off with grammar and style tips from professional editors. Use the checklists included in this book to make sure your paper measures up to any criteria, as you learn how to keep your paper consistent in style, tone, punctuation, capitalization, and more. This book is filled with hundreds of hints, tricks, and secrets on how to make your research paper stand out in the stack.

Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

The Principles of Writing Research Papers is the ultimate brief research reference. Pocket-sized and inexpensive, this research guide is priced to work as a supplement in any research-oriented course. Designed as a guide for writing research papers both in first-year composition courses and in upper-level courses in all disciplines, The Principles of Writing Research Papers is rooted in the fundamentals of thorough library research but encourages and equips students to use the Internet as well as field research where appropriate. It endorses the written word while recognizing the value of graphics, audio, video, and slide presentations. It includes numerous student samples and excerpts of model research papers with particular attention to MLA documentation style.

"Contains 50 essays with analysis from successful Ivy League applicants, tips on how to select the best topic, what Ivy League admission officers want to see in your essay, 25 mistakes that guarantee failure and tips from Ivy League students on how to write a successful essay"--
