Understanding the corporation means understanding its legal framework, but until recently the origins and evolution of corporate law have received relatively little attention. The topical chapters featured in this Research Handbook, contributed by leading scholars from around the world, examine the historical development of corporation and business organization law in the Americas, Europe, and Asia from the ancient world to modern times, providing an invaluable resource for both further historical research and scholars seeking the origins of present-day issues.

This title covers the law of business associations for introductory courses. It discusses business organizations, including agency, general partnerships, closely held corporations, publicly held corporations, limited partnerships, limited liability partnerships, and limited liability companies. The material on the unincorporated business forms has been revised, updated, and expanded to reflect the centrality of these forms of business organization in modern law practice and in the economy generally. Among other state and model statutes, the Revised Uniform LLC Act (2006), the Revised Uniform Partnership Act (1997), the Uniform Limited Partnership Act (2001), and the Third Restatement of Agency (2006) are discussed and cited.

This is the long-awaited second edition of this highly regarded comparative overview of corporate law. This edition has been comprehensively updated to reflect profound changes in corporate law. It now includes consideration of additional matters such as the highly topical issue of enforcement in corporate law, and explores the continued convergence of corporate law across jurisdictions. The authors start from the premise that corporate (or company) law across jurisdictions addresses the same three basic agency problems: (1) the opportunism of managers vis-à-vis shareholders; (2) the opportunism of controlling shareholders vis-à-vis minority shareholders; and (3) the opportunism of shareholders as a class vis-à-vis other corporate constituencies, such as corporate creditors and employees. Every jurisdiction must address these problems in a variety of contexts, framed by the corporation's internal dynamics and its interactions with the product, labor, capital, and takeover markets. The authors' central claim, however, is that corporate (or company) forms are fundamentally similar and that, to a surprising degree, jurisdictions pick from among the same handful of legal strategies to address the three basic agency issues. This book explains in detail how (and why) the principal European jurisdictions, Japan, and the United States sometimes select identical legal strategies to address a given corporate law problem, and sometimes make divergent choices. After an introductory discussion of agency issues and legal strategies, the book addresses the basic governance structure of the corporation, including the powers of the board of directors and the shareholders meeting. It proceeds to creditor protection measures, related-party transactions, and fundamental corporate actions such as mergers and charter amendments. Finally, it concludes with an examination of friendly acquisitions, hostile takeovers, and the regulation of the capital markets.

Through a series of studies of aspects of CSR from around the world, this book re-examines the topic through the lenses of various disciplines and cultures. It shows that the subject is much wider than is generally perceived and that CSR is evolving in a way which has not been generally recognized within the academic community.

This book is an attempt to explore this relationship and also to look into the obligations of the state and transnational corporations in the promotion of human rights. *Business and Human Rights* discusses how globalization has affected individuals in the enjoyment of their human rights in relation to the activities of corporations. The book addresses what additional steps the states should take to protect against human rights abuses by business enterprises that are owned or controlled by the state.
