Casi siempre comienza en los hogares. Ya se registran miles de casos en Vancouver, Hong Kong, Tel Aviv, Barcelona, Oaxaca, y se está propagando rápidamente a todos los rincones del mundo. Los kentukis no son mascotas, ni fantasmas, ni robots. Son ciudadanos reales, y el problema se dice en las noticias y se comparte en las redes es que una persona que vive en Berlín no debería poder pasearse libremente por el living de otra que vive en Sidney, ni alguien que vive en Bangkok desayunar junto a tus hijos en tu departamento de Buenos Aires. En especial cuando esas personas que dejamos entrar a casa son completamente anónimas. Los personajes de esta novela encarnan el aspecto más real y a la vez imprevisible de la compleja relación que tenemos con la tecnología, reavivando la noción del exhibicionismo y exponiendo al lector a los límites del prejuicio, el cuidado de los otros, la intimidad, el deseo y las buenas intenciones. Kentukis es una novela deslumbrante que potencia su sentido mucho más allá de la atracción que genera desde sus páginas. Una idea insólita y oscura, tan sensata en sus reflejos que, una vez que se entra en ella, ya no se puede salir.

Covers theoretical and practical aspects of the delivery of health care to young people, underpinned by a philosophy of respect for the child. The international team of authors combines a readable, user-friendly style with comprehensive coverage of the issues surrounding physical therapy with infants, children and adolescents. The content is liberally illustrated and organized to follow logically the child's growth and development.

This Manual will cover the JCB Backhoe Loader - the iconic 'yellow' digger, variants of which have now been in production for over 50 years. The book will be produced with the full co-operation of JCB, who are likely to take approx 2,000 copies to use for promotional activity to celebrate the company's 70th anniversary in October 2015 (a year of celebrations is planned running until October 2016) JCB has an extensive archive from which material will be drawn for use in the book, and it is envisaged that the 'project vehicle' will be a 'classic' 1979 3C Backhoe Loader - revered by enthusiasts, and the machine that took JCB from leading British manufacturer to a global player.

LONGLISTED FOR THE 2020 MAN BOOKER INTERNATIONAL PRIZE
A NEW YORK TIMES NOTABLE BOOK OF THE YEAR
"Her most unsettling work yet — and her most realistic." --New York Times
Named a Best Book of the Year by The New York Times, O, The Oprah Magazine, NPR, Vulture, Bustle, Refinery29, and Thrillist
A visionary novel about our interconnected present, about the collision of horror and humanity, from a master of the spine-tingling tale. They've infiltrated homes in Hong Kong, shops in Vancouver, the streets of in Sierra Leone, town squares in Oaxaca, schools in Tel Aviv, bedrooms in Indiana. They're everywhere. They're here. They're us. They're not pets, or ghosts, or robots. They're real people, but how can a person living in Berlin walk freely through the living room of someone in Sydney? How can someone in Bangkok have breakfast with your children in Buenos Aires, without your knowing? Especially when these people are completely anonymous, unknown, unfindable. The characters in Samanta Schweblin's brilliant new novel, Little Eyes, reveal the beauty of connection between far-flung souls—but yet they also expose the ugly side of our increasingly linked world. Trusting strangers can lead to unexpected love, playful encounters, and marvelous adventure, but what happens when it can also pave the way for unimaginable terror? This is a story that is already happening; it's familiar and unsettling because it's our present and we're living it, we just don't know it yet. In this prophecy of a story, Schweblin creates a dark and complex world that's somehow so sensible, so recognizable, that once it's entered, no one can ever leave.

In 1947 Vaino J. Holopainen (Vaino) and Roy E. Handy Jr. of the small town of Hubbardston, Massachusetts developed the world's first backhoe. This revolutionary invention that could dig and load by swinging side to side, was also the world's first all hydraulically actuated and controlled machine for digging. Vaino and Roy then formed Wain-Roy Corporation. Their grassroots contribution to the earth moving industry lead to the development of twenty-six major backhoe related break-through designs, including the tractor loader backhoe, which formed the worldwide multi-billion-dollar industry that we know today. The amazing story of Wain-Roy and the invention of the backhoe is one of inspiration, struggle, genius, success, theft and failure. Credit for the backhoe is often given to other larger outfits who no-doubt fueled the rise of its widespread use. Few people alive still remember the greatest triumphs and failures of the true inventors and innovators of first backhoe and the first all-hydraulic digger. Authors Lee Horton and Dave Willens, two engineers from Central Massachusets, wanted to capture this fascinating history before it was lost to time.

"All of us have dreams, goals, and perhaps a project or two on the back burner. The Entrepreneur's Toolkit is your chance to make these aspirations a reality. Professor Goldsby provides a detailed roadmap for starting, nurturing, expanding, and eventually selling a business; and he shows how the same valuable skills translate to other spheres of life."--Publisher's website.

Watching the kite ascend higher into the sky, ten-year-old Raghav felt butterflies run deep down his gut, inflating his desire to fly high in a supersonic jet. His kite, entangled with another, crashed onto the ground. The flight took off smoothly from the runway of her heart, only to be hit by turbulence and thunderstorms smashing the plane into an abandoned sea full of gloominess. There he saw a lighthouse, a ray of hope. She became his lifeguard and taught him to swim through the storm. Like a guiding angel, she enlightened him towards the path of self-discovery leading to his journey to the island called 'Bollywood.' Raghav rode on a roller coaster encompassing love, passion, and conflicts. Hopping from one town to another in search of his purpose, he landed in the city of love and lights, Paris, where he saw the horizon, an illusion of his world merging with hers. But just like the two poles on Earth never meet, so was his destiny. On one side, he had Diya whom he could never get, and on the other side was Niharika whom he could never lose, and in the midst of all the chaos, he found his treasure. Come along with him to discover his hidden treasure. Who knows! You might find yours too.

It's one month after their wedding, and the future looks bright for Judge Deborah Knott and Sheriff Deputy Dwight Bryant--until a disturbing call from Dwight's 8-year-old son Cal calls him back to Virginia. When he arrives, he is shocked to find that his ex-wife has left the boy alone for almost 24 hours. Worse, as Dwight tries to confront her, she takes the child and leaves town without a word. As Dwight embarks on an all-points search, Deborah hurries to his side. But will they be able to work together to decipher the ex-wife's motives--and, more importantly, will they find young Cal before he comes to harm?
