This book records the history of the output of the ceramics factories of Russia after the Revolution, both in a readable, informative text and with superb photographs.

In Soviet Salvage, Catherine Walworth explores how artists on the margins of the Constructivist movement of the 1920s rejected “ elitist ” mediums and imagined a new world, knitting together avant-garde art, imperial castoffs, and everyday life. Applying anthropological models borrowed from Claude L é vi-Strauss, Walworth shows that his mythmaker typologies—the “ engineer ” and “ bricoleur ” —illustrate, respectively, the canonical Constructivists and artists on the movement ’ s margins who deployed a wide range of clever make-do tactics. Walworth explores the relationships of Nadezhda Lamanova, Esfir Shub, and others with Constructivists such as Aleksei Gan, Varvara Stepanova, and Aleksandr Rodchenko. Together, the work of these artists reflected the chaotic and often contradictory zeitgeist of the decade from 1918 to 1929, and redefined the concept of mass production. Reappropriated fragments of a former enemy era provided a wide range of play and possibility for these artists, and the resulting propaganda porcelain, film, fashion, and architecture tell a broader story of the unique political and economic pressures felt by their makers. An engaging multidisciplinary study of objects and their makers during the Soviet Union ’ s early years, this volume highlights a group of artists who hover like free radicals at the border of existing art-historical discussions of Constructivism and deepens our knowledge of Soviet art and material culture.

Smart. Funny. Fearless. "It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.
