civilization when the barbarian darkness descended in the fifth century. Presenting early Britain as it was after the departure of the Romans—no Round Table, no many-towered Camelot—the setting is a hard, savage land, half-civilized, half-pagan, where a few men struggled to forge a nation and hold back the Saxon scourge. Richly detailed, the story chronicles the formation of a great army, the hardships of winter quarters, the primitive wedding feasts, the pagan fertility rites, the agonies of surgery after battle, the thrilling stag hunts, and the glorious processions of the era. Stripped of the chivalric embellishments that the French applied to British history centuries ago, the Arthurian age here emerges as a time when men stood at the precipice of history—a time of transition and changing values and imminent national peril.

An exciting historical adventure about a boy who has to fend for himself after his father and brother are killed by Saxon warriors at the great battle of Aquae Sulis. Rosemary Sutcliff is one of the best-loved writers of the twentieth century and this reissue will delight fans old and new.
