Jean-Jacques Rousseau (1712–1778) Jean-Jacques Rousseau was born in 1712 and was the author of *Discourse on Inequality*, *The Social Contract*, and many other influential works.

*Jean-Jacques Rousseau (1712–1778): Study Guide | SparkNotes*

Rousseau's suggested answer is that legitimate political authority rests on a covenant (a "social contract") forged between the members of society. He has a number of predecessors in theorizing a social contract, including Grotius, who proposes that there is a covenant between the king and his people--a "right of slavery"--where the people agree to surrender their freedom to the king.

775 quotes from Jean-Jacques Rousseau: 'People who know little are usually great talkers, while men who know much say little.', 'I prefer liberty with danger than peace with slavery.', and 'Man is born free, and everywhere he is in chains.'

*Jean-Jacques Rousseau Quotes (Author of The Social Contract)*

Rousseau's key political idea was the general will rather than the social contract. Political society is seen by Rousseau as involving the total voluntary subjection of every individual to the collective general will; this being both the sole source of legitimate sovereignty and something that cannot but be directed towards the common good.

"The publication of these excellent translations is a happy occasion for teachers of courses in political philosophy and the history of political theory. . . ." -- Raymon M Lemos, Teaching Philosophy

Individualist and communitarian. Anarchist and totalitarian. Classicist and romanticist. Progressive and reactionary. Since the eighteenth century, Jean-Jacques Rousseau has been said to be all of these things. Few philosophers have been the subject of as much or as intense debate, yet almost everyone agrees that Rousseau is among the most important and influential thinkers in the history of political philosophy. This new edition of his major political writings, published in the year of the three-hundredth anniversary of his birth, renews attention to the perennial importance of Rousseau's work. The book brings together superb new translations by renowned Rousseau scholar John T. Scott of three of Rousseau's works: the Discourse on the Sciences and Arts, the Discourse on the Origin and Foundations of Inequality Among Men, and On the Social Contract. The two Discourses show Rousseau developing his well-known conception of the natural goodness of man and the problems posed by life in society. With the Social Contract, Rousseau became the first major thinker to argue that democracy is the only legitimate form of political organization. Scott's extensive introduction enhances our understanding of these foundational writings, providing background information, social and historical context, and guidance for interpreting the works. Throughout, translation and editorial notes clarify ideas and terms that might not be immediately familiar to most readers. The three works collected in The Major Political Writings of Jean-Jacques Rousseau represent an important contribution to eighteenth-century political theory that has exerted an extensive influence on generations of thinkers, beginning with the leaders of the French Revolution and continuing to the present day. The new translations on

offer here will be welcomed by a wide readership of both Rousseau scholars and readers with a general interest in political thought.

The Social Contract, originally published as *On the Social Contract; or, Principles of Political Rights* by Jean-Jacques Rousseau, is a 1762 book in which Rousseau theorized about the best way to establish ...

A fascinating examination of the relationship between civilization and inequality from one of history's greatest minds The first man to erect a fence around a piece of land and declare it his own founded civil society—and doomed mankind to millennia of war and famine. The dawn of modern civilization, argues Jean-Jacques Rousseau in this essential treatise on human nature, was also the beginning of inequality. One of the great thinkers of the Enlightenment, Rousseau based his work in compassion for his fellow man. The great crime of despotism, he believed, was the raising of the cruel above the weak. In this landmark text, he spells out the antidote for man's ills: a compassionate revolution to pull up the fences and restore the balance of mankind. This ebook has been professionally proofread to ensure accuracy and readability on all devices.

Here are *The Prince* and the most important Discourses, newly translated into spare, vivid English by one of the most gifted historians of his generation. Why a new translation? "Machiavelli was never the dull, worthy, pedantic author who appears in the pages of other translations", says David Wootton in his Introduction. "In the pages that follow I have done my best to let him speak in his own voice." (And indeed, Wootton's Machiavelli literally does so when the occasion demands: Renderings of that most problematic of words, *virtù*, are in each instance followed by the Italian). Notes, a map, and an altogether remarkable Introduction, no less authoritative for being grippingly readable, help make this edition an ideal first encounter with Machiavelli for any student of history and political theory.
