WELTEN helps students to acquire and practice functional language abilities while at the same time developing interpretive and analytical competencies and an appreciation of the aesthetic qualities of language.

Through current, relevant, and meaningful materials, students learn to use language while seeing the world through the eyes of others, ultimately learning about themselves and the world they live in. With its innovative and integral video program, its contextualized and learner-centered presentation of grammar, and its unique selection of engaging texts from a broad

new technologies, devices, and print processes, which provided growing audiences with access to more visual material than ever before. This volume brings together the best aspects of interdisciplinary scholarship to enhance our understanding of the production, dissemination, and consumption of visual media prior to the predominance of photographic reproduction. By setting these examples against the backdrop of demographic, educational, political, commercial, scientific, and industrial shifts in Central Europe, these essays reveal the diverse ways that innovation in visual culture affected
