PowerPoint or the BI Launchpad Use Explorer to visually navigate large data sets and uncover patterns

The SAP BusinessObjects Business Intelligence platform is a powerful reporting and analysis tool. This book is the ideal introduction to the SAP BusinessObjects Business Intelligence platform, introducing you to its data visualization, visual analytics, reporting, and dashboarding capabilities.

If you are a business analyst, BI developer, or an IT professional who wants to learn the A to Z of how to work with Web Intelligence reporting tools and different types of data, then this book is for you. The only thing you need is a basic understanding of what Business Intelligence is and data concepts.

This training manual is meant for self-study in SAP® BusinessObjects Web Intelligence. It can also be used as a support for a guided introductory training. The reader will be systematically and successively learn how to use the software based on examples and exercises. Starting with elementary functionalities, he will get an ever-increasing insight into the possibilities of reporting. It does not aim at explaining each and every single menu item, but focuses on the most commonly used range of functions. The chapters each begin with a practical question from everyday reporting, the solution to which is explained by detailed and well-illustrated click-through instructions. Following the click-through instructions, short summaries as well as further in-depth background knowledge are offered, to facilitate the conceptual classification of the topics.

If you are a developer with a good command and knowledge of creating dashboards, but are not yet an advanced user of SAP BusinessObjects Dashboards, then this is the perfect book for you. Prerequisites include a good working knowledge of Microsoft Excel as well as knowledge of basic dashboard practices.

A complete step-by-step practical guide to using SAP BusinessObjects Web Intelligence 4.1 for creating queries and reports for data analysis

Ce livre s'inscrit dans la continuité des versions de SAP BusinessObjects Web Intelligence (WebI) et vous présente ici la version BI 4.2. Il s'adresse à tout utilisateur (du simple collaborateur concepteur de rapports, au décideur) appelé à travailler avec cette application vous permettant d'interroger et de croiser vos données d'entreprise au sein de rapports statiques et dynamiques. Simplicité, robustesse, innovation, fiabilité et pertinence sont les maîtres mots de cet outil Web intégré à la plateforme de Business Intelligence de SAP BusinessObjects. Vous apprendrez ainsi à maîtriser les différentes fonctionnalités de WebI BI 4.2 tout en construisant des documents de qualité : création de

requêtes (sur base de nouveaux fournisseurs de données), mise en forme de rapports (tableaux croisés, diagrammes, sections, ruptures, palmarès et mises en forme conditionnelles, etc.) analyse des données (filtres dynamiques, contrôles d'entrées, exploration ascendante, descendante, fonctions et variables etc.)... Pour vous aider dans votre apprentissage, vous suivrez de nombreux exemples soit adaptés à des problématiques rencontrées couramment soit vous permettant d'utiliser pleinement les nouvelles fonctionnalités de WebI BI 4.2 telles que les contrôles d'entrées en cascade ou les graphiques de type cartographique. Vous découvrirez également des techniques permettant de répondre à des besoins plus complexes d'analyse ou de mise en forme : rapports interactifs avec notion d'invite, requêtes avancées et SQL à la carte, utilisation de fichiers personnels de données, liaison entre sources de données, insertion de calculs dans un document. Un chapitre est spécifiquement consacré aux bonnes pratiques d'utilisation de l'outil ainsi qu'à un certain nombre de trucs et astuces qui permettront à tous les utilisateurs d'optimiser pleinement les fonctionnalités du logiciel. Des éléments complémentaires sont en téléchargement sur le site [www.editions-eni.fr](http://www.editions-eni.fr).

Bring your data presentations into focus with this comprehensive guide to SAP BusinessObjects Web Intelligence. Updated for Webi 4.2, this book will teach you to create, design, and share your reports, while exploring the fundamentals of Webi and its extended capabilities. This fourth edition includes information on data source options for building new documents and queries, and a new HTML5-based viewing interface. Punch up your reporting and analysis!

- a. SAP BI 4.2 SP4 Dive into Web Intelligence 4.2 enhancements and platform improvements, including a new HTML5 user interface, support for geomaps, and access to additional data sources
- b. Webi from A to Z Get the complete picture of working with Web Intelligence, from creation to publication. From the first step to the last, learn how to design reports that make an impact with this comprehensive guide
- c. Web Intelligence Interactive Viewer Discover the HTML5-based Web Intelligence Interactive Viewer and BI launchpad, a fully integrated interface for organizing, viewing, analyzing, and sharing business intelligence content.

SAP BusinessObjects Dashboards is a leading Business Intelligence and reporting tool that provides you with a real-time understanding of your business with agile visualizations. Starting with an introduction to Dashboards and its benefits, the book slowly moves on to explain the dashboard creation process. After this, you will learn how to add charts, single-value components, maps, selectors, and other third-party plugins to the existing dashboards. Furthermore, it shares many best practices and will also help you to connect your dashboard to real data by establishing a data connection to a data source. You can also explore more about mobile BI and learn how to create dashboards for mobile devices. By the end of the book, you
