As you practice, also focus on creating a smooth coat, and maintain straight lines. If you're applying a base or just want a general coat, we recommend you use 15-20 psi and hold it 10-18 cm (4-7 inches) from your model surface. If you're too far away the paint will dry and may not adhere to the surface.

Weathering is where you scale model becomes real. Weathering is super easy and fun and will make your model realistic. To imitate shadows and dirt, I use an oil paint that is dark brown. Oil paint takes a long time to dry and is very easy to rub off with a rag. Just liberally apply it like in the second picture. Take your rag and wipe it off.

This does NOT work with Testors Acryl! Thin the paint to a consistency of milk and you're ready to shoot. Enamels: I mix 2/3 Testors Model Master Enamels with 1/3 Testors Model Master Thinner. The paint should be as thin as milk, so if you get a color that is thicker, just add a little more thinner. Ditto on the ventilation! 3. Painting

of World War Two and Modern Era. Jose Luis Lopez Ruiz is a renowned Spanish modeller, also well known to Steelmaster Magazines readership. This talented modeller spent the alst few years developing and improving his own technique, inspired by the zenithal painting effect, to achieve a stunning color finish on his military scale models the black and white technique. Following the best-selling Paint Guide for Figures of WWII, this new book explains, through detailed step-by-step photos, how to give your model the perfect contrast and an eye-catching look. Presented are the different materials used, the black and white priming technique and

Although many modelers can master the basic techniques of construction, it is with the painting and finishing of their kits that many begin to struggle. It is this skill that gives the model its distinctive look and feel and separates the good model form the truly great one. This title will present a detailed, step-by-step approach to addressing the difficulties involved in creating realistic, colorful finishes to armor and aviation models using a variety of different media and techniques. The book will be aimed at both the beginner and the intermediate modeler looking to improve their skills and, through clear text and photography will give a chapter-by chapter guide to the subject. Each stage will deal with a particular element of the painting and finishing process, whether it be creating camouflage schemes or dealing with markings and decals, to build into a comprehensive study of the subject. Relevant tools and materials will be included in sidebars, whilst a Gallery feature will highlight the range of color schemes and finishes available throughout the world of military and aviation modeling.

Although many modellers can master the basic techniques of construction, it is with the painting and finishing of their kits that many begin to struggle. It is this skill that gives the model its distinctive look and feel and separates the good model form the truly great one. This title presents a detailed, step-by-step approach to addressing the difficulties involved in creating realistic, colourful finishes to armour and aviation models using a variety of different media and techniques. Aimed at both the beginner and the intermediate modeller looking to improve their skills, this chapter-by-chapter guide offers something for everyone.

A fully comprehensive guide to painting miniature models, Kevin Dallimore describes every aspect of his celebrated painting style, from a quick and simple method to get you started to more advanced techniques.

Airbrushing Scale Model Aircraft is a practical guide to the application and techniques of painting aircraft in any scale. It provides guidance on buying airbrushing equipment, setting it up and operating it safely, and offers detailed explanations of how airbrushes and compressors work, alongside their various components. The reader is taken through basic exercises to learn how to control airbrushing equipment before moving on to more advanced paint application techniques. This book also includes guides to preparation, information on the use of primers, and a handy troubleshooting guide to help identify and resolve common faults. Richly illustrated and filled with step-by-step guides to paint application for model aircraft, this book is an essential reference and practical guide for anyone looking to airbrush model aircraft in any scale and will be of great interest to plastic modellers, particularly aviation, from beginner to experienced modeller.

ALSO AVAILABLE AS AN E-BOOK. Brett Green details the prerequisites of airbrushing, including the different types of spray equipment and air sources available, offering advice on appropriate thinners, paint ratios and air pressures to ensure the most appropriate paint coverage across a range of different airbrushing applications. He then examines various airbrushing techniques across a wide range of models. Ten step-by-step, illustrated studies ranging from weathered military aircraft to pristine, high gloss motor vehicles, science fiction models, fantasy figures, groundwork and buildings will complete this in-depth guide to getting the best results on your models.

Released around the 75th anniversary of the end of World War II in the Pacific, you'll find aircraft, armor, figures and an emphasis on ship modeling projects from FineScale Modeler's Aaron Skinner and other top modeling experts. Each project features clear instructions and step-by-step photos, as well as detailed text and helpful tips. Choose from 17 projects, including: B-25 Strafer Aussie Wirraway or P-40 Canadian Spitfire American Essex or "jeep" carrier And more!

How to select tools, equipment, and paints to produce great looking figures in a few easy steps. Includes photos showing assembly, painting, and detailing techniques.

A guide to improving the technique of modelling miniature figures. In step-by-step detail, the author takes the reader from an unfinished model to a realistically posed and painted figure. The projects are basic enough for a beginner and challenging enough for an expert.
