Ship Breaker by Bacigalupi, Paolo
Nailer is part of a crew that breaks up tankers that are no longer in use. Because he's small, he's able to access smaller places in the ship. As he's working with a crewmember, Sloth, though, he falls into a vat of oil. Sloth decides to leave him to his fate (not super nice), and Nailer eventually finds his way out and tumbles into the ocean.

Cities. In this gripping, eerily prescient sci-fi thriller that Kirkus described as "masterful," Tool--a half-man/half-beast designed for combat--proves himself capable of so much more than his creators had ever dreamed. He has gone rogue from his pack of bioengineered "augments" and emerged a victorious leader of a pack of human soldier boys. But he is hunted relentlessly by someone determined to destroy him, who knows an alarming secret: Tool has found the way to resist his genetically ingrained impulses of submission and loyalty toward his masters... The time is coming when Tool will embark on an all-out war against those who have enslaved him. From one of science fiction's undisputed masters comes a riveting and all-too-timely page-turner that explores the intricate relationships connecting hunter and prey, master and enslaved, human and monster. "Suzanne Collins may have put dystopian literature on the YA map with 'The Hunger Games'...but Bacigalupi is one of the genre's masters, employing inventively terrifying details in equally imaginative story lines." --Los Angeles Times

Soldier boys emerged from the darkness. Guns gleamed dully. Bullet bandoliers and scars draped their bare chests. Ugly brands scored their faces. She knew why these soldier boys had come. She knew what they sought, and she knew, too, that if they found it, her best friend would surely die. In a dark future America where violence, terror, and grief touch everyone, young refugees Mahlia and Mouse have managed to leave behind the war-torn lands of the Drowned Cities by escaping into the jungle outskirts. But when they discover a wounded half-man--a bioengineered war beast named Tool--who is being hunted by a vengeful band of soldiers, their fragile existence quickly collapses. One is taken prisoner by merciless soldier boys, and the other is faced with an impossible decision: Risk everything to save a friend, or flee to a place where freedom might finally be possible. This thrilling companion to Paolo Bacigalupi's highly acclaimed Ship Breaker is a haunting and powerful story of loyalty, survival, and heart-pounding adventure.

In this inventive, fast-paced novel, New York Times bestselling and Printz Award-winning author Paolo Bacigalupi takes on hard-hitting themes--from food safety to racism and immigration--and creates a zany, grand-slam adventure that will get kids thinking about where their food comes from. The zombie apocalypse begins on the day Rabi, Miguel, and Joe are practicing baseball near their town's local meatpacking plant and nearly get knocked out by a really big stink. Little do they know the plant's toxic cattle feed is turning cows into flesh-craving monsters! The boys decide to launch a stealth investigation into the plant's dangerous practices, unknowingly discovering a greedy corporation's plot to look the other way as tainted meat is sold to thousands all over the country. With no grownups left they can trust, Rabi and his friends will have to grab their bats to protect themselves (and a few of their enemies) if they want to stay alive...and maybe even save the world.

Paolo Bacigalupi's debut collection demonstrates the power and reach of the science fiction short story. Social criticism, political parable, and environmental advocacy lie at the center of Paolo's work. Each of the stories herein is at once a warning, and a celebration of the tragic comedy of the human experience. The eleven stories in *Pump Six* represent the best Paolo's work, including the Hugo nominee "Yellow Card Man," the nebula and Hugo nominated story "The People of Sand and Slag," and the Sturgeon Award-winning story "The Calorie Man."

Paolo Bacigalupi, "New York Times" best-selling author of "The Windup Girl" and National Book Award finalist, delivers a near-future thriller that casts new light on how we live today and what may be in store for us tomorrow.
