Do you want to understand Neural Networks and learn everything about them but it looks like it is an exclusive club? Are you fascinated by Artificial Intelligence but you think that it would be too difficult for you to learn? If you think that Neural Networks and Artificial Intelligence are the present and, even more, the future of technology, and you want to be part of it... well you are in the right place, and you are looking at the right book. If you are reading these lines you have probably already noticed this: Artificial Intelligence is all around you. Your smartphone that suggests you the next word you want to type, your Netflix account that recommends you the series you may like or Spotify's personalised playlists. This is how machines are learning from you in everyday life. And these examples are only the surface of this technological revolution. Either if you want to start your own AI enterprise, to empower your business or to work in the greatest and most innovative companies, Artificial Intelligence is the future, and Neural

commitments. Many of the papers in this book deal with archeological evidence for extreme human antiquity, consistent with the Puranic histories. Other papers explore the history of archeology in India. In his book Human Devolution, Cremo presented a Vedic alternative to the current theory of human origins. Some of the papers in My Science, My Religion are related to this topic. This collection will be of interest to theologians, scientists, historians of science, philosophers of science, and scholars of science and religion.
