Today ' s busier, faster society is waging an undeclared war on childhood. With too much stuff, too many choices, and too little time, children can become anxious, have trouble with friends and school, or even be diagnosed with behavioral problems. Now internationally renowned family consultant Kim John Payne helps parents reclaim for their children the space and freedom that all kids need for their attention to deepen and their individuality to flourish. Simplicity Parenting offers inspiration, ideas, and a blueprint for change:

In this groundbreaking book, parenting expert and acclaimed author of the bestselling book Simplicity Parenting Kim John Payne, M.Ed., flips the script on children's challenging or defiant behavior and lays out an elegantly simple plan to support parents in establishing loving, age-sensitive boundaries that help children feel safe and settled. In short: What looks like misbehavior is actually your children's signal that they're feeling lost, that they are trying to find direction and looking to you to guide them back on course. Payne gives parents heartwarming help and encouragement by combining astute observations with sensitive and often funny stories from his long career as a parent educator and a school and family counselor. In accessible language, he explains the relevance of current brain- and child-development studies to day-to-day parenting. Breaking the continuum of childhood into three stages, Payne says that parents need to play three different roles, each corresponding to one of those stages, to help steer children through their emotional growth and inevitable challenging times: " The Governor, who is comfortably and firmly in charge--setting limits and making decisions for the early years up to around the age of eight " The Gardener, who watches for emotional growth and makes decisions based on careful listening, assisting tweens in making plans that take the whole family's needs into account " The Guide, who is both a sounding board and moral compass for emerging adults, helping teens build a sense of their life's direction as a way to influence healthy decision making Practical and rooted in common sense, The Soul of Discipline gives parents permission to be warm and nurturing but also calm and firm (not overreactive). It gives clear, doable strategies to get things back on track for parents who sense that their children's behavior has fallen into a troubling pattern. And best of all, it provides healthy direction to the entire family so parents can spend less time and energy on outmoded, punitive discipline and more on connecting with and enjoying their kids. Advance praise for The Soul of Discipline "The Soul of Discipline offers practical tools for helping parents implement discipline that's respectful and effective, but the book is so much more. Kim John Payne offers a framework to guide parents in making decisions about why, when, and how to hold tighter reins as we build skills in our children, and why, when, and how to loosen the reins as we scaffold freedom."--Tina Payne Bryson, Ph.D., co-author of No-Drama Discipline "This book gets deep inside the challenge of getting along with children and teens and thinks deeply about what they need from us to become strong and self-managing. It elevates discipline to what it should be--a caring process of helping kids orient to the world and live in it happily and well."--Steve Bidduph, author of The New Manhood "Kim Payne provides a useful model for choosing our parenting stance--Governor, Gardener, or Guide--depending on the situation. Most powerfully, Payne begins with the radical view that children are not disobedient but rather disoriented. The upshot of this shift in perspective is that discipline is about helping children orient themselves effectively, not about controlling or chastising."--Lawrence J. Cohen, Ph.D., author of Playful Parenting

A practical, meditative approach that can be used in the moment to help you stay calm and balanced when your child's behavior is pushing you to your limit--by the popular author of Simplicity Parenting. When children are at their most difficult and challenging situations arise, how can we react in a way that reflects our family values and expectations? Often, when children " push our buttons," we find ourselves reacting in ways that are far from our principles, often further inflaming a situation. When our children are at their worst, they need us to be at our best—or as close to it as we can be. Educator and family counselor Kim John Payne, author of Simplicity Parenting, offers techniques that simply and directly shift these damaging patterns in communication and parental behavior. These grounded and practical strategies will help you:

- Slow down the interaction
- Be more in control of your reactions
- Open up a much wider range of helpful responses
- Sense what your child ' s deeper needs are even though they are misbehaving
- Respond in a way that gives your child a feeling of being heard and still puts a boundary in place Payne ' s meditative approach can be done anywhere, anytime; it lifts you out of old, unwanted patterns of action-reaction and prepares you so that the voice you speak with is closer to the parent you want to be. His concrete and simple techniques can help you, and your children, be at your best, even in the most challenging of times.

For parents who want to slow down, but who don't know how, here are four simple steps for decluttering, quieting, and soothing family dynamics so that children can thrive at school, get along with peers, and nurture well-being. Kim John Payne, one of the world's leading Rudolf Steiner/Waldorf educators, offers novel ways to help kids feel calmer, happier, and more secure.

These days it seems everyone has a youth sports horror story—whether it ' s about a tyrant coach obsessed with his team record that only plays the best kids on the team, or a parent who publicly berates his kid for not making a goal. But should it really only be all about winning? What about having fun, learning a sport, and developing athletic skills? Beyond Winning with Whole Child Sports offers an alternative approach to teaching sports to kids. It deemphasizes short-term goals like winning and youth championships and discourages the introduction of adult-oriented, league-structured competition. Instead it emphasizes training techniques and coaching strategies aimed at improving core strength, balance, and creativity in aspiring athletes, using an age-appropriate four-stage timeline, based on a child ' s physical, psychological, and neurological development. Beyond Winning with Whole Child Sports provides frustrated parents with help in the form of advice and concrete solutions to common questions, and step-by-step instructions for helping young children develop athletic ability in an environment that ' s less structured while encouraging athletic and personal growth. It also reveals how to avoid bullying, trash talk, and elitism.

As we see a shift of old forms that were once the foundations of our daily lives, parents--who must prepare the next generation to meet the changing world--have more questions today than ever before. Although our cultural values and family structures may change, it is the atmosphere in the home that continues to form the foundation of a child's life. In Heaven on Earth, parent and educator Sharifa Oppenheimer reveals how parents can make the home environment warm, lively, loving, and consistent with their highest ideals. Heaven on Earth balances a theoretical understanding of child development with practical ideas, resources, and tips that can transform family life. Readers will learn how to create the regular life rhythms needed to establish a foundation for learning; how to design indoor play environments that allow children the broadest development of skills; and how to create outdoor play spaces that encourage vigorous movement and a wide sensory palette. Through art, storytelling, and the festival celebrations, this book is an invaluable guide to building a "family culture" based on the guiding principle of love--a culture that supports children and encourages the free development of each unique soul. Sharifa Oppenheimer offers a gift from the heart. Heaven on Earth is a practical, inspiring resource that brings the author's informed, intuitive understanding of young children into the heart of the home. "Sharifa Oppenhiemer has given the world a great gift in the pages of this book. The important child-development information is exquisitely combined with the best 'how-to's' I have seen in any book for parents. Her book, is a ready guide that insures joyful, enthusiastic children who learn easily and contribute to their families and society for a lifetime. I have delighted in every page and feel this is absolutely A must read for parents, grandparents, teachers, and perhaps everyone who will ever touch the life of a child." --Carla Hannaford, Ph.D., biologist and international educational consultant to 32 countries and author of Smart Moves: Why Learning Is Not All in Your Head and Awakening the Child Heart, Handbook for Global Parenting "This delightful book will be a wonderful resource for parents. They will certainly appreciate its warm, friendly, personal, and reassuring tone. I would have loved such a book when I was a young mother! For those whose children already attend Waldorf programs, it provides a helpful resource for creating a bridge between home and kindergarten. For others, this lovely book offers wonderful glimpses into the wise and nurturing practices of Waldorf early childhood education. In a world where childhood is increasingly 'media'ed and 'adult'ered, this book offers much-needed support for the protection of childhood. " --Susan Howard, chairperson, Waldorf Early Childhood Association of North America and coordinator, International Association for Steiner/Waldorf Early Childhood Education "Being a parent is a challenging assignment, but with the help of Sharifa Oppenheimer's book, Heaven on Earth, our work immediately becomes easier. This book is both heartfelt and practical. It offers sound parenting principles with down-to-earth examples of how to raise children with both insight and grace." --Jack Petrash, director, Nova Institute, and author, Navigating the Terrain of Childhood: A Guidebook for Meaningful Parenting and Heartfelt Discipline
