Over 1,100 alphabetically arranged entries examine the history, geography, people, government, economy, art, and religions of Sri Lanka.

The time for what? The title of Mihaela Gligor's edited collection is wonderfully flexible, as anything having to do with time should be. There is something not only boundless about time, but also raw and untamed. In its pure form, time would be too much for us to handle. We would be crushed by the sheer immensity of it, or else we would lose our minds trying to make sense of such unmediated time. Luckily, for the most part we don't experience time in its pure form. Time comes to us already processed: shaped, engineered, tamed. The volume does fine justice to the notion that we experience time as already shaped by religion, politics, and culture. Whether its contributions cover religious or political figures, philosophers or poets, mystics or physicists, they show - sometimes explicitly, sometimes more discreetly - how difficult it is to deal with time in a pure, unmediated form. The contributors' cultural, religious, and intellectual rooting inform the way think about time, just as about

The study of South Asian music falls under the purview of ethnomusicology, whereas that of South Asian literature falls under South Asian studies. As a consequence of this academic separation, scholars rarely take notice of connections between South Asian song and poetry. Modernizing Composition overcomes this disciplinary fragmentation by examining the history of Sinhala-language song and poetry in twentieth-century Sri Lanka. Garrett Field describes how songwriters and poets modernized song and poetry in response to colonial and postcolonial formations. The story of this modernization is significant in that it shifts focus from India's relationship to the West to little-studied connections between Sri Lanka and North India.

This examination of Sri Lanka's ethnic and religious minorities links the past with the present through a treatment of Sinhala-Buddhist fundamentalist development in the late nineteenth century and its hegemony in the late twentieth.

Collection of essays focussing on causes that led to current political crisis in Sri Lanka.

Sri Lanka has been the meeting point of many ideologies and ways of being. This has spelt heterogeneity, syncretism and conflict. In drawing upon the practices of empirical research promoted by Western intellectual traditions, the author demonstrates the strengths of these practices through his contextualised engagement with the pogroms of 1915 and 1983, as well as other incidents, as at the same time he delineates some of the limits of empiricist rationality. This book is replete with rich ethnographic detail and serves as an exercise in historical anthropology which illuminates Sri Lanka's political culture. It not only opens out the contrast between Western and Indian world views, but also explores the human condition by bringing out the immediacy surrounding acts of victimisation and human beings in
