Elisha Cooper spent a year hanging out at a Chicago high school— listening and sketching students. He followed eight kids, mostly seniors, through their entire year, and by telling their specific stories he gives us a more general picture of what it's like to be a high school student. Part documentary, part sketchbook, this is a, thoroughly entertaining account.

Cutnell and Johnson has been the #1 text in the algebra-based physics market for almost 20 years. The 10th edition brings on new co-authors: David Young and Shane Stadler (both out of LSU). The Cutnell offering now includes enhanced features and functionality. The authors have been extensively involved in the creation and adaptation of valuable resources for the text. This edition includes chapters 1-17.

Amusement park physics gives teachers a gamut of subjects ranging from ways to incorporate amusement parks in classroom work to practical suggestions for taking a class to Physics Day. In between are methods of collecting data and approaches to analyzing it.

Making education and career connections.
