~~Special Forces - Mercenaries Part II Quotes by Aleksandr ...~~  
Mercenaries II for me was about revelations and learning. We begin to really see the men behind the warriors. Seeing them with family and friends. Seeing them learning how the world outside all they have ever known really works and seeing them deal with forces outside of war that could potentially destroy them.

text Special Forces - Mercenaries Part II 4.5 Stars. BR with my lovely Andrea. I've never read a book before when I hated two prominent characters so much but rated it highly. To be fair I've got a love/hate thing going on with Dan but it's definitely a hate thing with Jean. I've put this review in a spoiler because I know it's been around for ...

Not all that glitters is gold. Nikolai Krasnorada leads the life of a corporate nomad. Working for a gold explorations company, he's never put down roots, and he likes it that way. Roots can be dangerous, as everyone from his "man-hating" sister to his manipulative mother to his war-traumatized father has proven. But when his CEO sends him to Toronto to strike a deal with LeBeau Mining, Nikolai meets Henri LeBeau, crown prince to the resources conglomerate and inveterate flirt. Sparks fly immediately, despite the business deal that threatens to go sour and Nikolai's own reluctance to give Henri false hope about him being Mr. Right. He's barely come to terms with his bisexuality, and getting involved with Henri would get messy. When LeBeau Mining launches a hostile takeover bid, Nikolai and Henri find themselves on opposite sides of the negotiating table. But fortunately – or perhaps unfortunately – for Nikolai, Henri's not nearly as interested in his company as he is in his heart.

It's right there in the Book of Job: "Man is born unto trouble as the sparks fly upward." Suffering is an inescapable part of the human condition—which leads to a question that has proved just as inescapable throughout the centuries: Why? Why do we suffer? Why do people die young? Is there any point to our pain, physical or emotional? Do horrors like hurricanes have meaning? In *Seven Ways of Looking at Pointless Suffering*, Scott Samuelson tackles that hardest question of all. To do so, he travels through the history of philosophy and religion, but he also attends closely to the real world we live in. While always taking the question of suffering seriously, Samuelson is just as likely to draw lessons from Bugs Bunny as from Confucius, from his time teaching philosophy to prisoners as from Hannah Arendt's attempts to come to terms with the Holocaust. He guides us through the arguments people have offered to answer this fundamental question, explores the many ways that we have tried to minimize or eliminate suffering, and examines people's attempts to find ways to live with pointless suffering. Ultimately, Samuelson shows, to be fully human means to acknowledge a mysterious paradox: we must simultaneously accept suffering and oppose it. And understanding that is itself a step towards acceptance. Wholly accessible, and thoroughly thought-provoking, *Seven Ways of Looking at Pointless Suffering* is a masterpiece of philosophy, returning the field to its roots—helping us see new ways to

understand, explain, and live in our world, fully alive to both its light and its darkness.

Mercenaries are more powerful than experts realize, a grave oversight. Those who assume they are cheap imitations of national armed forces invite disaster because for-profit warriors are a wholly different genus and species of fighter. Private military companies such as the Wagner Group are more like heavily armed multinational corporations than the Marine Corps. Their employees are recruited from different countries, and profitability is everything. Patriotism is unimportant, and sometimes a liability. Unsurprisingly, mercenaries do not fight conventionally, and traditional war strategies used against them may backfire.

An Elle Kennedy favorite, desire in a hot zone leads to a race against time. Unless they stop it, the deadly virus decimating San Marquez will be unleashed on America. Fugitive Sgt. Sebastian Stone and Dr. Julia Davenport have stumbled onto the shocking conspiracy behind a terrifying ultimatum—but exposing it could cost them their lives. Sparks of passion have already threatened their mission. Though both Sebastian and Julia don't "do" commitment, they rush headlong into a casual affair. On the run from both the government and terrorists, neither Sebastian nor Julia knows who to trust. As the clock runs down, they must stop this deadly threat...and realize that some things are worth the risk... Book 2 of The Hunted series.

For anyone who's ever considered a career as a warrior-for-hire—or who just wants to learn more about the lifestyle—How to Become a Mercenary is the ultimate guide to all the history, training, and equipment information you'll ever need! Mercenaries—who are often trained as part of the best Special Forces, including American Delta Force, British SAS, French Foreign Legion, Marines, SBS, SEALs, and many others—perform one of the most dangerous and feared jobs in the world. Their task is to go into remote locations and remove their targets by any means necessary. They are “hired hands,” and have no remorse for their actions. Now, along with Soldier of Fortune magazine, Barry Davies teaches you the training and knowledge that goes into being a mercenary, as well as the history of the profession and how it has evolved. How to Become a Mercenary will teach you everything you've ever needed to know about becoming a mercenary, and also how to excel at it with information on weapons, escape plans, and overall safety. You will learn: • Where and how to find work • How to understand and apply the most modern tactics • What languages to master • Which weapons are preferred • How to disappear after you've completed your job It's always been about the money, but in this book, you will learn all the skills that you must acquire before you take your first job. Just remember: Article 47 of the Geneva Convention states that “a mercenary shall not have the right to be a combatant or a prisoner of war.” Getting caught is not an option, and in this manual, you will learn how to avoid that at all costs.

An explosive account of a secret group of mercenaries based on newly declassified documents.

A woman in danger... Serena Brooks is a bestselling author of erotic fiction. She knows how to write a happy ending but hasn't managed to find one of her own. Divorced and alone, she has no one to turn to when a stalker begins to threaten her life. The cops don't believe her. Her ex-husband thinks she's making the whole story up. She has no one left to turn to except a pair of hired bodyguards. They promise to guard her body, but no one can protect her heart. Two men in search of love... Adam Miles and Jacob Dean are halves of a whole. They've spent their entire adult lives searching for the one woman who can handle them both. Adam is the playful, indulgent lover, while Jacob is the possessive, loving Dom. When Serena comes into their lives, Adam is certain that she's the one. But Jacob's past comes back to haunt them all. He is suspicious of Serena's story, and his concerns are driving a wedge between him and Adam. But when the stalker strikes, they will have to come together or lose each other forever... A Masters and Mercenaries Novel by Lexi Blake

Sadie Jennings was used to being protected. As the niece of Sean Taggart, and the receptionist at McKay-Taggart Group, she was constantly surrounded by Alpha men more than capable, and willing, to lay down their life for her. But when she visits her friend in San Antonio, and acts on suspicious activity at Milena's workplace, Sadie puts both of them in the crosshairs of a madman. After several harrowing weeks, her friend is now safe, but for Sadie, the repercussions of her rash act linger on. Chase Jackson, no stranger to dangerous situations as a captain in the US Army, has volunteered himself as Sadie's bodyguard. He fell head over heels for the beautiful woman the first time he laid eyes on her. With a Delta Force team at his back, he reassures the Taggart's that Sadie will be safe. But when the situation in San Antonio catches up with her, Chase has to use everything he's learned over his career to keep his promise...and to keep Sadie alive long enough to officially make her his.

Meet Blackwater USA, the private army that the US government has quietly hired to operate in international war zones and on American soil. Its contacts run from military and intelligence agencies to the upper echelons of the White House; it has a military base, a fleet of aircraft and 20,000 troops, but since September 2007 the firm has been hit by a series of scandals that, far from damaging the company, have led to an unprecedented period of expansion. This revised and updated edition includes Scahill's continued investigative work into one of the outrages of our time: the privatisation of war.

Second volume of Deutscher prize-winning trilogy on the future of IR, tracing the defining characteristics of 'foreign encounters' over time.
