This publication, written and developed by experienced Caribbean teachers and advisors, has been designed to meet the requirements of maths syllabuses from across the region. It includes worked examples, objectives and explanation boxes, overviews of chapters, real life case studies, assessments and reviews and progessive exercises that support the development of critical thinking skills and independent learning among Caribbean maths students at the lower secondary level.

Math in a Minute for grade 5 includes essential math skills such as finding factors and multiples, analyzing patterns and relationships, and understanding the place value system. This 96-page workbook also includes adding, subtracting, multiplying, and dividing multi-digit whole numbers, identifying equivalent fractions and converting customary and metric measurements and more. Math in a Minute has fun math activities with pages separated by skill, theme, and completion time. Activities range in complexity from 1 minute to 10 minutes depending on the grade level. This allows children to gradually build their way up to more and more intense work. The repetition gives children an opportunity to reinforce basic skills and concepts. Beat the clock for fast-paced math practice!

Help improve math skills, especially during the summer months, to connect kids from one grade to the next. An assessment test and an incentive contract are included. Topics covered include numeration, addition, subtraction, multiplication, division, time and money, measurement, fractions, patterns and geometry, and much more!

Move on Maths! offers versatile, tried and tested maths resources for nine to eleven years for you to use in the way that is most suitable for your pupils. The units give you flexible ideas, rather than prescriptive lessons and support the Renewed Primary Framework for mathematics. The PNS Framework objectives are clearly shown for every sheet, followed by unit learning outcomes, so it ’ s easy to choose the right worksheet to suit you and your children ’ s needs, contains more than fifty stand-alone photocopiable units in four strands to be used in class or as homework tasks, complete with teachers’ notes and answers to help your planning broadens understanding of four key numeracy strands from the Renewed Primary Framework: Using and applying mathematics; Understanding Shape, Measuring; Handling Data contains a bank of short, sharp exercises, problems and fun starter activities and games to kick start your maths lesson with the whole class includes challenges to extend your gifted and talented learners or early finishers covers PNS Framework objectives and learning outcomes for a two year span, Year 5 and 6 ideal for mixed-age classes.

The 180 Days of Problem Solving e-Book for Grade 2 offers daily problem solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly e-Book provides thematic units that connect to a standards-based skill that second grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards.

Summer Splash Learning Activities will keep your child active and learning all summer long. The curriculum-based, self-motivating activities in this workbook review reading and math topics your child learned in second grade and prepare him or her with the skills needed to leap into third grade! Each workbook features 96 pages of hands-on activities to build confidence and bridge the summer learning gap, as well as answer keys and assessment tests to measure progress. The week-by-week format encourages your child to continue learning throughout the summer, whether you’re at home or on the go. Summer is the perfect time to give your child a head start when school starts in the fall! Answer key included. 96 pages.

Math 4 Today: Daily Skill Practice for fifth grade contains reproducible activities designed to help students learn these math skills and concepts: -graphing -patterning -multiplying and dividing fractions and decimals -measurement The Math 4 Today book for fifth grade aligns with current state standards. Math 4 Today: Daily Skill Practice for fifth grade provides 40 weeks of learning activities for each day of the week. This math workbook for students only requires 10 minutes of review and practice each day, and it includes fluency activities, reproducible activities, and writing prompts. An assessment of the skills covered for the week is provided for the fifth day to help teachers easily monitor progress. The 4 Today series is a comprehensive, quick, and easy-to-use math workbook. The reproducible activities review essential skills during a four-day period. On the fifth day, an assessment with related skills is provided. Each week begins with a Fluency Blast section to provide students with repeated, daily practice for essential skills. The format and style of the 4 Today books provide excellent practice for standardized tests. The series also includes a fluency-tracking reproducible, a standards alignment chart, tips for fostering a school-to-home connection, and an answer key.

A high school textbook presenting the fundamentals of geometry.

The February Monthly Collection for third grade is aligned to current state standards and saves valuable prep time for centers and independent work. The included February calendar is filled with notable events and holidays, and the included blank calendar is editable, allowing the teacher to customize it for their classroom. Student resource pages are available in color and black and white. Additional collection resources include: •Informational reading •Poetry •Prefixes •Homophones •Dictionary skills •Measurement •Polygons •STEM •Dental Hygiene •Presidents Day •African American History The February Monthly Collection for third grade can be used in or out of the classroom to fit the teachers’ needs and help students stay engaged. Each Monthly Collection is designed to save teachers time, with grade-appropriate resources and activities that can be used alongside classroom learning, as independent practice, center activities, or homework. Each one includes ELA, Math, and Science resources in a monthly theme, engaging students with timely and interesting content. All Monthly Collections include color and black and white student pages, an answer key, and editable calendars for teachers to customize. This resource may be printed and photocopied for use in a single classroom only.

New York Times bestselling author Danica McKellar makes it a breeze to excel in high school geometry! Hollywood actress and math whiz Danica McKellar has completely shattered the “ math nerd ” stereotype. For years, she ’ s been showing girls how to feel confident and ace their math classes—with style! With Girls Get Curves, she applies her winning techniques to high school geometry, giving readers the tools they need to feel great and totally “ get ” everything from congruent triangles to theorems, and more. Inside you ’ ll find: • Time-saving tips and tricks for homework and tests • Illuminating practice problems (and proofs!) with detailed solutions • Totally relateable real-world examples • True stories from Danica ’ s own life as an actress and math student • A Troubleshooting Guide, for getting unstuck during even the trickiest proofs! With Danica as a coach, girls everywhere can stop hiding from their homework and watch their scores rise!
