Stakeknife became second-in-command of the IRA's internal security unit, known as the 'Nutting Squad'. Once agent Stakeknife was in place, the IRA effectively had no security. Another important account in the book is of the sadistic agent Brian Nelson, planted by the FRU in the Ulster Defence Association (UDA), moral enemy of the IRA.

head of the IRA's infamous 'Nutting Squad', the internal security force which tortured and killed suspected informers.

Recruited by British Intelligence to infiltrate the IRA and Sinn Féin during the height of the Northern Ireland Troubles, they were 'agents of influence'. With codenames like INFLICTION, STAKEKNIFE, 3007 and CAROL, these spies played a pivotal role in the fight against Irish republicanism. Now, for the first time, some of these agents have emerged from the shadows to tell their compelling stories. Agents of Influence takes you behind the scenes of the secret intelligence war which helped bring the IRA's armed struggle to an end. Historian Aaron Edwards, the critically acclaimed author of UVF: Behind the Mask, explains how the IRA was penetrated by British agents, with explosive new revelations about the hidden agendas of prominent republicans like Martin McGuinness and Freddie Scappaticci and lesser-known ones like Joe Haughey and John Joe Magee. Bringing to light recently declassified TOP SECRET documents and the firsthand testimonies of agents and their handlers, Edwards reveals how British Intelligence gained extraordinary access to the IRA's inner circle and manipulated them into engaging with the peace process. With new insights into the spy masters behind the scenes, their strategies and tactics, and Britain's international intelligence network

in Northern Ireland, Europe, and beyond, Agents of Influence offers a rare and shocking glimpse into the clandestine world of secret agents, British intelligence strategy and the betrayal at the heart of militant Irish republicanism during the vicious decades of the Troubles.

Early one morning in March 1985, as he climbed the six steps of Margaret Thatcher's prime-ministerial jet on the runway of RAF Aldergrove, little did Willie Carlin know the role Freddie Scappaticci played in saving his life. So began the dramatic extraction of Margaret Thatcher's key undercover agent in Sinn Féin - Willie Carlin, aka Agent 3007. For 11 years the former British soldier worked alongside former IRA commander Martin McGuinness in the republican movement's political wing in Derry. He was MI5's man at McGuinness' side and gave the British State unprecedented insight into the IRA leader's strategic thinking. Carlin worked with McGuinness to develop Sinn Féin's election strategy after the 1981 hunger strike, and the MI5 and later FRU agent's reports on McGuinness, Adams and other republicans were read by the British Cabinet, including Margaret Thatcher herself. When Carlin's cover was blown in mid-1985 thanks to one of his old MI5 handlers being jailed as a Soviet spy, Thatcher authorised the use of her jet to whisk him to safety. Incredibly, it was another British 'super spy' inside the IRA's

secretive counter-intelligence unit, the 'nuttin' squad', who saved Carlin's life. The Derry man is perhaps the only person alive thanks to the information provided by the 'jewel in the crown' of British military intelligence - Freddie Scappaticci, aka Stakeknife. In Thatcher's Spy, the Cold War meets Northern Ireland's Dirty War in the remarkable real-life story of a deep undercover British intelligence agent, a man now doomed forever to look over his shoulder. . .

"I am a British soldier," I told my reflection. "I am a British soldier and I'm saving lives. I'm saving lives. I'm a British soldier and I'm saving lives..." Kevin Fulton was one of the British Army's most successful intelligence agents. Having been recruited to infiltrate the Provisional IRA at the height of The Troubles, he rose its ranks to an unprecedented level. Living and working undercover, he had no option other than to take part in heinous criminal activities, including the production of bombs which he knew would later kill. So highly was he valued by IRA leaders that he was promoted to serve in its infamous internal police - ironically, his job was now to root out and kill informers. Until one day in 1994, when it all went wrong. . . Fleeing Northern Ireland, Kevin was abandoned by the security services he had served so courageously and left to live as a fugitive. The life of a double agent requires constant vigilance, for

danger is always just a heartbeat away. For a double agent within the highest ranks of the IRA, that danger was doubled. In this remarkable account, Kevin Fulton - former intelligence agent, ex-member of the IRA - tells a truth that is as uncomfortable as it is gripping.

When British troops first deployed to Northern Ireland in 1969, to halt the threat of a new rising force - the Provisional Irish Republican Army - they could not have known that the longest campaign in the British Army's history was beginning. While patrols, vehicle bombs and incendiary speeches are the defining memories of the Troubles, the real war was fought out of sight and out of mind. For thirty years, Britain's Special Forces waged a ferocious, secretive struggle against a ruthless and implacable enemy. Harry McCallion offers a unique insight into nearly every major military action and operation in the Province, having served seven tours with the Parachute Regiment, passed selection for 14 Intelligence Company, completed six years with the SAS anti-terrorism team, and joined the Royal Ulster Constabulary, receiving two commendations for bravery during his service. This book is his blistering account of the history of Britain's war against the IRA between 1970 and 1988 - the most murderous years of the conflict - drawn from his own operational experience and backed by first-hand accounts and unpublished documents. From

new insights into high-profile killings and riveting accounts of enemy contact, to revelations about clandestine missions and strategies in combating a merciless enemy, Undercover War is the definitive inside story of the battle against the IRA, one of the most dangerous and effective terrorist organisations in recent history.

The exposure of two senior republicans as informers for British intelligence in 2005 led to a popular perception that the IRA had 'lost' the intelligence war and was pressurised into peace. In this first in-depth study across the entire conflict, Thomas Leahy re-evaluates the successes and failures of Britain's intelligence activities against the IRA, from the use of agents and informers to special-forces, surveillance and electronic intelligence. Using new interview material alongside memoirs and Irish and UK archival materials, he suggests that the IRA was not forced into peace by British intelligence. His work sheds new light on key questions in intelligence and security studies. How does British intelligence operate against paramilitaries? Is it effective? When should governments 'talk to terrorists'? And does regional variation explain the outcome of intelligence conflicts? This is a major contribution to the history of the conflict and of why peace emerged in Northern Ireland.

This is a true account of secret operations carried out by the British Army's most clandestine unit- the Force Research Unit. Through the author's own experiences, the story of an essential instrument in the fight against terrorism, that of covert intelligence gathering, is told.

Farmers, shopkeepers, publicans and businessmen were slaughtered in a bloody decade of bombings and shootings in the counties of Tyrone and Armagh in the 1970s. Four families each lost three relatives; in other cases, children were left orphaned after both parents were murdered. For years there were claims that loyalists were helped and guided by members of the RUC and Ulster Defence Regiment. But, until now, there was no proof. Drawing on 15 years of research, and using forensic and ballistic information never before published, this book includes official documents showing that the highest in the land knew of the collusion and names those whose fingers were on the trigger and who detonated the bombs. It draws on previously unpublished reports written by the PSNI's own Historical Enquiries Team. It also includes heartbreaking interviews with the bereaved families whose lives were shattered by this cold and calculated campaign.

The SAS describes its attitude to the use of lethal force as 'Big boys' games, big boys' rules'. Anyone caught with a gun or bomb can expect to be shot. In *Big Boys' Rules: The SAS and the Secret Struggle Against the IRA* Mark Urban meticulously explores the security forces' covert operations in Northern Ireland: from the mid-1970s, when they were stepped up, to the Loughall ambush in 1987, in which eight IRA Provisionals were killed. While charting the successes and failures of special operations during the troubles, Urban reveals the unenviable dilemmas faced by intelligence chiefs engaged in a daily struggle against one of the world's most sophisticated terrorist organisations. 'This is a book that needed to be written and which fulfils the essentials of any Ulster story; it expands understanding beyond fragmented jingoism and newspaper headlines.'
