The next major breakthrough with galactic maps came with the release of The Essential Atlas in August of 2009. As the name of the book implies, the focus of the work by Daniel Wallace and Jason Fry was on providing an atlas of the Star Wars galaxy. As such, it obviously had to include maps. Lots of them.

The next major breakthrough with galactic maps came with the release of The Essential Atlas in August of 2009. As the name of the book implies, the focus of the work by Daniel Wallace and Jason Fry was on providing an atlas of the Star Wars galaxy. As such, it obviously had to include maps. Lots of them.
