Travel and tourism is

*Page 47/124*

one of the fastest growing industries in the world. Occupying a vast sector of the economy, the industry is comprised of countless individuals and companies that provide a wide assortment of services to travelers. With the number of travelers increasing annually throughout

# Download Ebook Start

the world, it is expected that the travel and tourism sector will continue to expand. When people travel for pleasure or business, most turn to travel agents to help them plan their trips. Thus, the travel agent is at the hub of the industry. It is the travel agent who guides travelers

# Download Ebook Start

through the maze of choices for transportation, accommodations, tours, and rentals.

While the Internet enjoys much press for the alternatives it offers to travelers who wish to book their own flights and hotels, the fact is that travel agents in the United States alone account

# Download Ebook Start

for the sale of three out of every four airline tickets and the sale of nine out of ten cruise packages. In 1999, U.S. travel agencies accounted for close to \$50 billion in ticket sales. The future for the travel and tourism industry is bright. Currently the industry ranks as the second largest

# Download Ebook Start

Your Own business enterprise in the U.S., and many economists expect that it will soon

become the largest.

The industry accounts for 6.7 of America's

GNP, and this, too, is likely to grow. The

reasons for this are varied and include: 1.

The world is getting smaller. Modern

transportation

# Download Ebook Start

systems reach into every corner of the globe, making it easier to visit places that just a few years ago would have been nearly impossible to visit. 2. More countries than ever welcome tourists because of the economic benefits they bring. Many countries that not long

# Download Ebook Start

ago had closed borders are now open and eager for tourist dollars. 3. The decade of the nineties witnessed significant worldwide economic expansion, which increased the disposable income for millions of families. This is particularly true of Western nations and Japan. 4.

# Download Ebook Start

The aging baby boomer population of the U.S.- those individuals between the ages of 46 and 54 - is at the peak of its earning power.

Moreover, in many of these families, children are grown and have finished college, leaving their parents with new-found income and

# Download Ebook Start

wealth. A big part of this wealth is used for travel. Indeed, American baby boomers are among the most active groups in the travel and tourism industry. 5. Retired individuals account for a large part of the travel industry's revenues. Free from the responsibilities of

# Download Ebook Start

Raising children and building careers, many retired people regularly travel to places they always wanted to visit but previously did not have the time or money. Given the fact that America's population, as well as the populations of Western Europe and Japan, are graying, it

# Download Ebook Start

is likely that "seniors" will continue to help fuel the travel industry's expansion. All this bodes particularly well for travel agents and their agencies. Although the industry is highly competitive, hard-working travel agents enjoy great success. Aside from the pleasure of operating

# Download Ebook Start

a successful  
business, there are  
many other  
opportunities that one  
may realize as a  
travel agent. Many of  
these opportunities  
are rather common,  
cited regularly in  
travel articles.

Impressive discounts,  
complimentary  
accommodations, and  
free tours are typical,

# Download Ebook Start

but there is much more for the travel agent who also views himself as an entrepreneur. The creative travel agent does not limit himself to simply booking trips for others, but uses his position as a springboard for taking advantage of global opportunities. For example, when taking

# Download Ebook Start

advantage of a free  
(or very low cost)  
familiarization tour of  
Europe - sponsored  
by a tour operator to  
acquaint agents with  
his itinerary - a travel  
agent may use his  
down time to explore  
business  
opportunities in the  
region. There may be  
local companies in  
which he may wish to

# Download Ebook Start

invest, he may find that he can establish a tour for a niche market, or he may find through first-hand experience that the host country's laws will enable him to invest in foreign securities at substantial tax savings. Opportunities abound for those who are willing to find

them. The closing years of the millennium have witnessed a revolution in the travel industry. In the past, the industry was filled with companies that maintained storefront offices. Indeed, some travel agencies maintained several offices. This is no longer true. While the

# Download Ebook Start

offices still exist, the technological revolution has enabled many travel agents to work out of their homes, freeing them from the need of maintaining a large office with expensive overhead. A small room, a moderately priced computer and Internet connection, phone system, desk

# Download Ebook Start

Your own chair are often all that is needed to conduct travel business from one's home-based office.

The industry has become open to virtually anyone who loves travel and embraces the challenge of owning a business. Using his phone and computer, the agent working

# Download Ebook Start

from his home can easily book airlines, cruises, hotels, and tours, working when and as much as he or she likes. Some people become travel agents to establish a home business that will become their career, but many others prefer to work only part-time as travel agents.

# Download Ebook Start

Whatever way you choose to operate your travel business, you still can enjoy all of the many benefits, prestige, and success that come with being a travel agent.

Individuals who are interested in becoming travel agents should not simply accept the traditional bounds and

benefits that come with travel agencies, chiefly the booking of trips and the chance to travel cheaply themselves, but should look upon the many global opportunities that they can enjoy. While they should view themselves as travel agents, they should also view themselves

as entrepreneurs. Of course, to realize the many opportunities that will be available to you, you will need to keep your mind and eyes open, be willing to investigate and pursue alternatives for possible investment, and accept that hard work is essential to being successful in an increasingly
