This book: Strategic Management of Technological Innovation, Sixth Edition is written for courses that may be called strategic management of technology and innovation, technology strategy, technology innovation, technology management, or for specialized new product development courses that focus on technology. The subject is approached as a strategic process, and as such, is organized to mirror the strategic management process used in most strategy textbooks, progressing from assessing the competitive dynamics of a situation, to strategy formulation, to strategy implementation. Highlights: 1. Complete Coverage for Both Business and Engineering Students 2. New Short Cases and New Indian Cases 3. Cases, Data, and Examples from around the World 4. More Comprehensive Coverage and Focus on Current Innovation Trends

"With an emphasis on global advantage, the text offers a comprehensive examination of regional and international issues to provide a complete, accurate and up-to-date explanation of the strategic management process. New coverage on environmental concerns and emerging technologies as well as examples and cases from Australia, New Zealand and Asia-Pacific serve to engage students while updated international content demonstrates how strategic management is used in the global economy. The text takes a 'resource-based' approach, which requires the examining of a firm's unique bundling of its internal resources." --Publisher's website.
