Ten hours after the attack on Pearl Harbor, “ another Pearl Harbor ” of even more devastating consequence for American arms occurred in the Philippines, 4,500 miles to the west. On December 8, 1941, at 12.35 p.m., 196 Japanese Navy bombers and fighters crippled the largest force of B-17 four-engine bombers outside the United States and also decimated their protective P-40 interceptors. The sudden blow allowed the Japanese to rule the skies over the Philippines, removing the only effective barrier that stood between them and their conquest of Southeast Asia. This event has been called “ one of the blackest days in American military history. ” How could the army commander in the Philippines—the renowned Lt. Gen. Douglas MacArthur—have been caught with all his planes on the ground when he had been alerted in the small hours of that morning of the Pearl Harbor attack and warned of the likelihood of a Japanese strike on his forces? In this book, author William H. Bartsch attempts to answer this and other related questions. Bartsch draws upon twenty-five years of research into American and Japanese records and interviews with many of the participants themselves, particularly survivors of the actual attack on Clark and Iba air bases. The dramatic and detailed coverage of the attack is preceded by an account of the hurried American build-up of air power in the Philippines after July, 1941, and of Japanese planning and preparations for

this opening assault of its Southern Operations. Bartsch juxtaposes the experiences of staff of the U.S. War Department in Washington and its Far East Air Force bomber, fighter, and radar personnel in the Philippines, who were affected by its decisions, with those of Japan ' s Imperial General Headquarters in Tokyo and the 11th Air Fleet staff and pilots on Formosa, who were assigned the responsibility for carrying out the attack on the Philippines five hundred miles to the south. In order to put the December 8th attack in broader context, Bartsch details micro-level personal experiences and presents the political and strategic aspects of American and Japanese planning for a war in the Pacific. Despite the significance of this subject matter, it has never before been given full book-length treatment. This book represents the culmination of decades-long efforts of the author to fill this historical gap.

In the Philippines and Okinawa, the third volume of Colonel William S. Triplet's memoirs, tells

of Triplet's experiences during the American occupations in the early years after World War II. Continuing the story from the preceding books of his memoirs, *A Youth in the Meuse-Argonne* and *A Colonel in the Armored Divisions* (University of Missouri Press), Triplet takes us to the Philippines, where his duties included rounding up isolated groups of Japanese holdouts, men who refused to believe or admit that their nation had lost the war, and holding them until the time came to transport them back to Japan.

Cass, Thea and Alan, teenagers in 1951 Philadelphia, are spirited off into historical Spain, visiting various key dates and locations of Al-Andalus during the nearly 800 years of the Arab occupation from 711 until 1492. As the teens discover the nature of the magic necklace, meet Sebastian, the young officer of the Queen's Guard, and the sprite, Dijini Maeden, the characters realize that they are on a perilous quest.
