The second edition of DISKO, a photography book about Lithuanian village discos by Andrew Miksys. "The discos of Lithuania were once Soviet offices, detention centers, weapons storage, rare Lithuanian mushroom-packing plants... who knows? ...Andrew's photographs capture a

generation born to bewilderment: the disko kids still carry the past in their eyes and hard-to-maintain indifference, but they are the creatures of a very brief moment in time, one that will never ever exist again except in these pictures. Miksys has caught a fleeting world that emanates death and hope in the pulses of ephemeral disco lights." - Andrei Codrescu For ten years Andrew Miksys traveled the back roads of Lithuania photographing teenagers in village discos (2000-2010). Most of these discos are located in Soviet-era culture houses where Miksys would sometimes find discarded Lenin paintings, old Soviet movie posters, gas masks, and other remnants of the Soviet Union. He became fascinated by all this debris of a dead empire and the teenagers who visited the clubs. It seemed like a perfect backdrop to make a series of photographs about young people in Lithuania, a crumbling past, and the uncertain future of a new generation all together in one room.

Nothing but clear, 100-proof American history. Hooch. White lightning. White whiskey. Mountain dew. Moonshine goes by many names. So what is it, really? Technically speaking, "moonshine" refers to untaxed liquor made in an unlicensed still. In the United States, it's typically corn that's used to make the clear, unaged beverage, and it's the mountain people of the American South who are most closely associated with the image of making and selling backwoods booze at night—by the light of the moon—to avoid detection by law enforcement. In *Moonshine: A Cultural History of America's Infamous Liquor*, writer Jaime Joyce explores America's centuries-old relationship with moonshine through fact, folklore, and fiction. From the country's early adoption of Scottish and Irish home distilling techniques and traditions to the Whiskey Rebellion of the late 1700s to a comparison of the moonshine industry pre- and

post-Prohibition, plus a look at modern-day craft distilling, Joyce examines the historical context that gave rise to moonshining in America and explores its continued appeal. But even more fascinating is Joyce's entertaining and eye-opening analysis of moonshine's widespread effect on U.S. pop culture: she illuminates the fact that moonshine runners were NASCAR's first marquee drivers; explores the status of white whiskey as the unspoken star of countless Hollywood film and television productions, including *The Dukes of Hazzard*, *Thunder Road*, and *Gator*; and the numerous songs inspired by making 'shine from such folk and country artists as Joan Baez, Bob Dylan, Alan Jackson, and Dolly Parton. So while we can't condone making your own illegal liquor, reading *Moonshine* will give you a new perspective on the profound implications that underground moonshine-making has had on life in America.

It is now a scientific fact, the pain we experience as a result of heartbreak stimulates the same region of the brain stimulated when we are experiencing physical pain. From personal experience, psychology doctoral candidate Troy Byer profoundly understands heartbreak pain is real. As a direct result of her personal experience, in this book, Troy will help you to understand, getting over your ex is a delicate process that requires actions beyond crying, gossiping, stalking, ignoring or avoiding. Such a process demands that you let go of your immobilizing monologs and that you move into transforming dialogues and inquiries that are life altering experiences. In addition to fulfilling the process above, the 9 Keys in this book will enable you to alter your relationship to pain, labels and your circumstances. To better

understand how you navigate the tumultuous sea of love, these 9 Keys will assist you in finding the sea vessel that best represents you. Once you understand how you are designed, you will also understand the importance of choosing other ships that your ship can inherently relate to and therefore comfortably be in a relationship with. Metaphorically speaking, if you're a slow but steady Rowboat personality, the way you navigate the sea in the midst of a storm will vastly differ from that of a thrill-seeking Speedboat personality. As a result of this difference, it's inevitable that someone is going overboard. Finally, in addition to identifying and learning about the kind of boat you float on the sea of love, you will also learn about the secret treasures you exchanged with your ex while journeying as one. The surprise is that these precious treasures are truly the treasures you have been diving for and nearly willing to die for your entire life. Once you understand, you already possess the treasure you have been seeking on the sea of love, the search outside of you ends and a new relationship with yourself begins.
