Book Review - The Alphabet vs. the Goddess: The Conflict ...  
Into this debate steps San Francisco physician Leonard Shlain, with his book "The Alphabet Versus The Goddess." Shlain suggests that the idea for the book came to him during a trip to Greece, although others such as Walter Ong ("Orality and Literacy," which is not in Shlain's bibliography) and Robert Logan ("The Alphabet Effect"), had previously tilled the field by some years.

The Alphabet Versus the Goddess: The Conflict Between Word ...

The Alphabet Versus the Goddess: The Conflict Between Word and Image is a work of critical theory by American surgeon Leonard Shlain, published by Viking Press in 1998. Shlain argues that learning written language, especially alphabetic language, alters human brain function in a way that emphasizes linear thinking over holistic thinking.

The Alphabet Versus the Goddess : The Conflict Between ...

“ The proposition that the alphabet has hindered women ’ s aspirations and accomplishments seems, at first glance, to be antithetical to historical facts. ” Leonard Shlain, The Alphabet Versus the Goddess: The Conflict Between Word and Image

This groundbreaking book proposes that the rise of alphabetic literacy reconfigured the human brain and brought about profound changes in history, religion, and gender relations. Making remarkable connections across brain function, myth, and anthropology, Dr. Shlain shows why pre-literate cultures were principally informed by holistic, right-brain modes that venerated the Goddess, images, and feminine values. Writing drove cultures toward linear left-brain thinking and this shift upset the balance between men and women, initiating the decline of the feminine and ushering in patriarchal rule. Examining the cultures of the Israelites, Greeks, Christians, and Muslims, Shlain reinterprets ancient myths and parables in light of his theory. Provocative and inspiring, this book is a paradigm-shattering work that will transform your view of history and the mind.

Alphabetic literacy reconfigured the human brain and brought about profound changes in history, religion, and gender relations. Making remarkable connections across brain function, myth, and anthropology, Dr. Shlain shows why pre-literate cultures were principally informed by holistic, right-brain modes that venerated the Goddess, images, and feminine values. Writing drove cultures toward linear left-brain thinking and this shift upset the balance between men and women, initiating the decline of the feminine and ushering in patriarchal rule. Examining the cultures of the Israelites, Greeks, Christians, and Muslims, Shlain reinterprets ancient myths and parables in light of his theory. Provocative and inspiring, this book is a paradigm-shattering work that will transform your view of history and the mind.

As in the bestselling *The Alphabet Versus the Goddess*, Leonard Shlain's provocative new book promises to change the way readers view themselves and where they came from. *Sex, Time, and Power* offers a tantalizing answer to an age-old question: Why did big-brained *Homo sapiens* suddenly emerge some 150,000 years ago? The key, according to Shlain, is female sexuality. Drawing on an awesome breadth of research, he shows how, long ago, the narrowness of the newly bipedal human female's pelvis and the increasing size of infants' heads precipitated a crisis for the species. Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles, entraining them with the periodicity of the moon. The results, however, did much more than ensure our existence; they imbued women with the concept of time, and gave them control over sex—a power that males sought to reclaim. And the possibility of achieving immortality through heirs drove

# Read Book The Alphabet Versus Goddess Conflict Between Word And Image Leonard Shlain

men to construct patriarchal cultures that went on to dominate so much of human history. From the nature of courtship to the evolution of language, Shlain ' s brilliant and wide-ranging exploration stimulates new thinking about very old matters.

Demonstrates how alphabetic literacy caused the development of the brain's left half over the right, which affected the role and power of women

Understanding Da Vinci ' s Creative Genius The life and art of history ' s most influential mind Bestselling author Leonard Shlain explores the potential for humankind through the life, art, and mind of the first true Renaissance Man, Leonardo da Vinci. His innovations as an artist, scientist, and inventor are recast through a modern lens, with Shlain applying contemporary neuroscience to illuminate da Vinci ' s creative process. No other person in human history has excelled in so many areas of innovation: Shlain reveals the how and the why. Shlain theorizes that Leonardo ' s extraordinary mind came from a uniquely developed and integrated right and left brain, which offers a model for how we too can evolve. Using past and current research, Leonardo ' s Brain presents da Vinci as the focal point for a fresh exploration of human creativity. With his lucid style and remarkable ability to discern connections among a wide range of fields, Shlain brings the reader into the world of history ' s greatest mind. Leonard Shlain is a bestselling author, inventor, and surgeon. Admired among artists, scientists, philosophers, anthropologists, and educators, he authored three bestselling books. He delivered stunning visual presentations based upon his books in venues around the world, including Harvard, the New York Museum of Modern Art, CERN, Los Alamos, the

Florence Academy of Art, and the European Council of Ministers. Shlain died in May 2009 at the age of 71 from brain cancer shortly after the completion of this book. Visit [LeonardShlain.com](http://LeonardShlain.com) and [LeonardosBrain.com](http://LeonardosBrain.com).

Art interprets the visible world. Physics charts its unseen workings. The two realms seem completely opposed. But consider that both strive to reveal truths for which there are no words—with physicists using the language of mathematics and artists using visual images. In *Art & Physics*, Leonard Shlain tracks their breakthroughs side by side throughout history to reveal an astonishing correlation of visions. From the classical Greek sculptors to Andy Warhol and Jasper Johns, and from Aristotle to Einstein, artists have foreshadowed the discoveries of scientists, such as when Monet and Cezanne intuited the coming upheaval in physics that Einstein would initiate. In this lively and colorful narrative, Leonard Shlain explores how artistic breakthroughs could have prefigured the visionary insights of physicists on so many occasions throughout history. Provocative and original, *Art & Physics* is a seamless integration of the romance of art and the drama of science—and an exhilarating history of ideas.

The *White Goddess* is perhaps the finest of Robert Graves's works on the psychological and mythological sources of poetry. In this tapestry of poetic and religious scholarship, Graves explores the stories behind the earliest of European deities—the *White Goddess of Birth, Love, and Death*—who was worshipped under countless titles. He also uncovers the obscure and mysterious power of "pure poetry" and its peculiar and mythic language.

Essential reading for our times, as women are pulling

# Read Book The Alphabet Versus Goddess Conflict Between Word And Image Leonard

together to demand their rights— A landmark portrait of women, men, and power in a transformed world.

“ Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand.” –The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And “ the end of men ” —the title of Rosin ’ s Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan ’ s “ feminine mystique, ” Simone de Beauvoir ’ s “ second sex, ” Susan Faludi ’ s “ backlash, ” and Naomi Wolf ’ s “ beauty myth ” once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in *The End of Men* she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future.

Get ready to enter the working world of illustration with this freshly updated second edition of Brazell and Davies's *Becoming a Successful Illustrator*. This edition features even more 'Spotlight on...' sections, with advice from practicing illustrators as well as the people that commission them. Featured illustrators include: Millie Marotta Mark Ulriksen Natsko Seki Ellen Weinstein Stephen Collins ... and many more Featured topics include: Finding clients Agency representation Fields of work Financial and legal requirements Skills in art and design Self-promotion Showing work Managing your business

“ An honest, compelling, surprising, and vastly reassuring book about the spiritual life of women . . . This landmark book is spiritual precisely because it is authentic. ” —Joan Borysenko, Ph.D., author of *Minding the Body, Mending the Mind* With a foreword by Jean Shinoda Bolen, M.D. For many contemporary women, the old patriarchal models of religion are no longer relevant, forming a need to look beyond the male-oriented past to a wider, more fulfilling spiritual horizon. In this fascinating and thought-provoking book, Sherry Anderson and Patricia Hopkins show how many women have redefined traditional beliefs and rediscovered their own unique spiritual heritage—*The Feminine Face of God*. Anderson and Hopkins guide you through the sacred garden of:

- Childhood—seedbed of life's sacred passage
- Leaving home—finding your own inner authority
- Relationships—new perspectives on intimacy
- Spiritual practice—the importance of guidance and discipline
- Sexuality—a wild card constantly cracking open the heart

And much more As women enter their sacred garden and learn the art of inner listening, they acquire the tools for

# Read Book The Alphabet Versus Goddess Conflict Between Word And Image Leonard

living, loving, and praying authentically. In *The Feminine Face of God* there are seeds for growth: for creating and sustaining intimacy and love in a new way; for a new understanding of sexuality; for a new vision of family, a family of choice in a community of love.
