A black wolf is a melanistic colour variant of the gray wolf. Black specimens were recorded among red wolves, though the colour morph in this species is probably now extinct. Genetic research from the Stanford University School of Medicine and the University of California, Los Angeles revealed that wolves with black pelts owe their distinctive coloration to a mutation which occurred in domestic dogs, and was carried to wolves through wolf-dog hybridization. The epic novel, an African Game of Thrones, from the Man Booker Prize-winning author of A Brief History of Seven Killings In the stunning first novel in Marlon James's Dark Star trilogy, myth, fantasy, and history come together to explore what happens when a mercenary is hired to find a missing child. Tracker is known far and wide for his skills as a hunter: "He has a nose," people say. Engaged to track down a mysterious boy who disappeared three years earlier, Tracker breaks his own rule of always working alone when he finds himself part of a group that comes together to search for the boy. The band is a hodgepodge, full of unusual characters with secrets of their own, including a shape-shifting man-animal known as Leopard. As Tracker follows the boy's

scent--from one ancient city to another; into dense forests and across deep rivers--he and the band are set upon by creatures intent on destroying them. As he struggles to survive, Tracker starts to wonder: Who, really, is this boy? Why has he been missing for so long? Why do so many people want to keep Tracker from finding him? And perhaps the most important questions of all: Who is telling the truth, and who is lying? Drawing from African history and mythology and his own rich imagination, Marlon James has written a novel unlike anything that's come before it: a saga of breathtaking adventure that's also an ambitious, involving read. Defying categorization and full of unforgettable characters, Black Leopard, Red Wolf is both surprising and profound as it explores the fundamentals of truth, the limits of

When Lucas King's covert-ops father is kidnapped and his best friend Meena is put in danger, Luke's only chance to save them--a skin that will let him walk as a wolf--is hidden away in an abandoned mansion guarded by monsters.

Since devastating secrets were uncovered by Nora Kessler, Niklas Fleischer and Victor Faust have been divided as business partners and brothers. But ultimately Niklas is

persuaded to lead a mission to Italy, and he sees it as an opportunity to set in motion forgiveness—or retribution—for his brother's betrayal. The mission: play the role of a wealthy German investor and kidnap a beautiful, notorious madam named Francesca Moretti. No stranger to these types of roles, Niklas is the best man for the job, but this time the risks will be much greater as he will not be doing it alone. Izabel Seyfried, still fresh out of a life of imprisonment and sex slavery, could be negatively affected by the things she will see in Moretti's mansion, and Niklas must keep her in line so she does not blow their cover and get them killed. But Niklas isn't the only one who must play a role—Nora takes on the humiliating task of playing Niklas's slave, and Izabel must play the role of his lover. On one hand, Niklas couldn't be

enjoying himself more. On the other hand, the emotions that continue to rage inside of him may be too much for him to control, and it may be Niklas—not Izabel—who needs to be kept in line. He cannot forget what Victor has done, and this mission may just be the beginning of his downward spiral. Can the blood bond that Niklas and Victor share as brothers be stronger than resentment? Or will vengeance dig the blade so deep that their bond be eternally severed?
