Legends of wolf-men exist in the beliefs of almost all peoples and cultures. The terror of werewolves reached a climax in the late Middle Ages when Kramer's Malleus Maleficarum (Hammer of Witches) linked the creatures to religious heresy, Satanism, and witchcraft. He described the wolf-man transformation as the result of malevolent witchcraft and presented shapeshifting as a common, demonic practice. Baring-Gould's study on werewolves successfully manages to compress an enormous span of historical material into his work. The book is valuable to academics, those interested in folklore, and any wishing to learn more about the occult.

One of the best known studies of lycanthropy, written by the author of the hymn 'Onward Christian Soldiers.' The first ten chapters are a pretty good review of the shape-shifting literature, and then it takes a strange left turn into the topic of psychopathy.

From the author of the beloved national bestseller Migrations, a pulse-pounding new novel set in the wild Scottish Highlands. Inti Flynn arrives in Scotland with her twin sister, Aggie, to lead a team of biologists tasked with reintroducing fourteen gray wolves into the remote Highlands. She hopes to heal not only the dying landscape, but Aggie, too, unmade by the terrible secrets that drove the sisters out of Alaska. Inti is not the woman she once was, either, changed by the harm she's witnessed-inflicted by humans on both the wild and each other. Yet as the wolves surprise everyone by thriving, Inti begins to let her guard down, even opening herself up to the possibility of love. But when a farmer is found dead, Inti knows where the town will lay blame. Unable to accept her wolves could be responsible, Inti makes a reckless decision to protect them. But if the wolves didn't make the kill, then who did? And what will Inti do when the man she is falling for seems to be the prime suspect? Propulsive and spell-binding, Charlotte McConaghy's Once There Were Wolves is the unforgettable story of a woman desperate to save the creatures she loves-if she isn't consumed by a wild that was once her refuge.

What is Lycanthropy? The change of manor woman into the form of a wolf, either through magical means, so as to enable him or her to gratify the taste for human flesh, or through judgment of the gods in punishment for some great offence. This is the popular definition. Truly it consists in a form of madness, such as may be found in most asylums. Among the ancients this kind of insanity went by the names of Lycanthropy, Kuanthropy, or Boanthropy, because those afflicted with it believed themselves to be turned into wolves, dogs, or cows. But in the North of Europe, as we shall see, the shape of a bear, and in Africa that of a hyena, were often selected in preference. A mere matter of taste! According to Marcellus Sidetes, of whose poem [Greek _peri lukandr'w'pou_] a fragment exists, men are attacked with this madness chiefly in the beginning of the year, and become most furious in February; retiring for the night to lone cemeteries, and living precisely in the manner of dogs and wolves. Virgil writes in his eighth Eclogue: -- Has herbas, atque hæc Ponto mihi lecta venena Ipse dedit Mrs; nascuntur plurima Ponto. His ego sæpe lupum fieri et se conducere sylvis Mrim, sæpe animas imis excire sepulchris, Atque satas alio, vidi traducere messes. And Herodotus: --"It seems that the Neuri are sorcerers, if one is to believe the Scythians and the Greeks established in Scythia; for each Neurian changes himself, once in the year, into the form of a wolf, and he continues in that form for several days, after which he resumes his former shape."--(Lib. iv. c. 105.) See also Pomponius Mela (lib. ii. c. 1) "There is a fixed time for each Neurian, at which they change, if they like, into wolves, and back again into their former condition."

The Reverend Sabine Baring-Gould (28 January 1834 - 2 January 1924) of Lew Trenchard in Devon, England, was an Anglican priest, hagiographer, antiquarian, novelist, folk song collector and eclectic scholar. His bibliography consists of more than 1240 publications, though this list continues to grow. His family home, the manor house of Lew Trenchard, near Okehampton, Devon, has been preserved as he had it rebuilt and is now a hotel. He is remembered particularly as a writer of hymns, the best-known being "Onward, Christian Soldiers" and "Now the Day Is Over." He also translated the carol "Gabriel's Message" from the Basque language to English.CAREERBecause the family spent much of his childhood travelling round Europe, most of his education was by private tutors. He only spent about two years in formal schooling, first at King's College School in London (then located in Somerset House) and then, for a few months, at Warwick Grammar School (now Warwick School). Here his time was ended by a bronchial disease of the kind that was to plague him throughout his long life. His father considered his ill-health as a good reason for another European tour.In 1852 he was admitted to Cambridge University, earning the degrees of Bachelor of Arts in 1857, then Master of Arts in 1860 from Clare College, Cambridge. In September 1853 he informed Nathaniel Woodard of his desire to be ordained. He taught for only ten days at one of Woodard's boys' boarding schools in Sussex, Lancing College, but then moved to another, Hurstpierpoint College, where he stayed from 1857 to 1864. While there he was responsible for several subjects, especially languages and science, and he also designed the ironwork of the bookcases in the boys' library, as well as painting the window jambs with scenes from the "Canterbury Tales" and the "Faery Queen."He took Holy Orders in 1864, and became the curate at Horbury Bridge, West Riding of Yorkshire. It was while acting as a curate that he met Grace Taylor, the daughter of a mill hand, then aged fourteen. In the next few years they fell in love. His vicar, John Sharp, arranged for Grace to live for two years with relatives in York to learn middle-class manners. Baring-Gould, meanwhile, relocated to become perpetual curate at Dalton, near Thirsk. He and Grace were married in 1868 at Wakefield. Their marriage lasted until her death 48 years later, and the couple had 15 children, all but one of whom lived to adulthood. When he buried his wife in 1916 he had carved on her tombstone the Latin motto Dimidium Animæ Meæ ("Half my Soul").Baring-Gould became the rector of East Mersea in Essex in 1871 and spent ten years there. In 1872 his father died and he inherited the 3,000-acre (12 km2) family estates of Lew Trenchard in Devon, which included the gift of the living of Lew Trenchard parish. When the living became vacant in 1881, he was able to appoint himself to it, becoming parson as well as squire. He did a great deal of work restoring St Peter's Church, Lew Trenchard, and (from 1883 to 1914) thoroughly remodelled his home, Lew Trenchard Manor.

She-wolf explores the cultural history of the female werewolf, from her first appearance in medieval literature to recent incarnations in film, television and popular literature. The book includes contributors from various disciplines, and offers a cross-period, interdisciplinary exploration of a perennially popular cultural production. The book covers material from the Middle Ages to the present day with chapters on folklore, history, witch trials, Victorian literature, young adult literature, film and gaming. Considering issues such as religious and social contexts, colonialism, constructions of racial and gendered identities, corporeality and subjectivity - as well as female body hair, sexuality and violence - She-wolf reveals the varied ways in which the female werewolf is a manifestation of complex cultural anxieties, as well as a site of continued fascination.

A young reporter on assignment is attacked and bitten by an unknown beast in rural Northern California and begins a terrifying but seductive transformation into a being with a dual nature, both man and wolf.

The hugely popular early chapter book series re-emerges -- now in e-book! The new director at Camp Lone Wolf seems like a nice guy. But when the kids learn the legend of a local boy who disappeared and the wolf that prowls the campgrounds howling in the night, they start to wonder if Camp Lone Wolf is more than just a name. Mr. Jenkins is covered in hair, eats his meat almost raw, and has an obsession with wolves. But could he really be a werewolf?

WARNING: May Contain Werewolves. A pyramid predating all known cultures appears without warning. Its discovery throws into question everything we know about the origins of mankind. Inside lies incredible technology, proof of a culture far more advanced than our own. Something dark lurks within, eager to resume a war as old as mankind. When it is unleashed it heralds the end of our species' reign. A plague of werewolves spreads across the world. A sunspot larger than anything in recorded history begins to grow. Yet both pale in comparison to the true threat, the evil the werewolves were created to fight. "It's like Indiana Jones went through the Stargate and ended up in Aliens versus Predator." - One of the author's totally biased friends.
