Examines the lives of church planters and the challenges that are encountered when founding a church, including balancing ministry and family, leading staff, maintaining spiritual vitality, and building lasting friendships.

With nearly fifty years combined global church-planting experience, Craig Ott and Gene Wilson are well qualified to write a comprehensive, up-to-date guide for cross-cultural church planting. Combining substantive biblical principles and missiological understanding with practical insights, this book walks readers through the various models and development phases of church planting. Advocating methods that lead to church multiplication, the authors emphasize the role of the missionary church planter. They offer helpful reflection on current trends and provide best practices gathered from research and empirical findings around the globe. The book takes up a number of special issues not addressed in most church planting books, such as use of short-term teams, partnerships, and wise use of resources. Full of case studies and real examples from around the world, this practical text will benefit students, church planters, missionaries, and missional church readers.

A groundbreaking guide for multiplying the impact of church plants Based on a study that was commissioned by the Leadership Network, this book reveals the best practices in church planting and uncovers the common threads among them. A much-needed resource, this book will inform, guide, and even catalyze today’s many church planting leaders. The authors clearly show leaders how to plant churches that create a multiplication movement and offer inspiration for them to do so. The book addresses their questions about what to do next in their church planting strategies, in light of research on what’s actually working best. Author Ed Stetzer heads up LifeWay Research Provides reliable, credible information about what church planting strategies work best A volume in the Leadership Network Series Offers a definitive guide for church planting and the burgeoning movement it is part of.

Church planting is not just about gathering new communities of people who are already Christians. Planting churches flows naturally out of making disciples. In this concise guide, pastor J. D. Payne explains the process and stages of church planting, with biblical foundations and practical steps for planting teams both domestically and internationally.

Most books on church planting offer a model for churches to replicate--usually one that is tied to a particular style, generation, or demographic. But what churches really need is a process that is flexible, not bound to a particular time or current fad. In The Nuts and Bolts of Church Planting, trusted author and church-planting expert Aubrey Malphurs shares the basic steps any church planter will need, regardless of his or her generation now or in the future. These steps include establishing values, mission, vision, and strategy reaching the community making disciples recruiting a team determining location and facilities raising money for the ministry WWith instant practical takeaway based on proven techniques, this book will be invaluable to any church planter.

Church planting has become a cottage industry. National conferences, hip planting organizations, and all-in-one resource kits celebrate the thrill of pioneering a church and inspire visions of glorious victories. Yet few who respond to the call are warned what they'll actually encounter: the relentless opposition they'll endure; the eventual scattering of their entire core group; the failure of their tried-and-true, field-tested system. Here's the dirty little secret of church planting: the roadside is strewn with casualties. Many have closed their churches. Some left ministry permanently. Others abandoned the faith altogether. Church planting is at once the greatest and most grueling ministry work on earth. This book is for those toiling in the trenches, those about to bail out, and those considering jumping in. It's for the church planters laboring and struggling, seeing little movement, and wondering what they're doing wrong or why God is failing them. It's also for mother churches, planting organizations, and denominations, as a challenge to rethink and re-calibrate the way they approach and measure planting endeavors. The Honest Guide to Church Planting is a fresh and candid conversation about the challenges and joys of planting new churches. Tom Bennardo speaks the truth so that those involved in church planting can embrace a more accurate and realistic picture of what planting a church is really like; one that not only enables them to survive, but to thrive in this difficult work.

"Lord knows that we have more than enough books about ourselves and never enough books about the God that created us. It isn't until we see him that we can then make sense of ourselves. I believe Jen Oshman ’ s book accomplishes that by widening our vision and helping us fall in love with seeing God again." —Jackie Hill Perry, poet; author; hip-hop artist Women today feel a constant pressure to improve themselves and just never feel like they ’ re “ enough. ” All too often, they live their daily lives disheartened, disillusioned, and disappointed. That ’ s because joy doesn ’ t come from a new self-improvement strategy; it comes from rooting their identity in who God says they are and what he has done on their behalf. This book calls women to look away from themselves in order to find the abundant life God offers them—contrasting the cultural emphasis on personal improvement and empowerment with what the Scriptures say about a life rooted, built up, and established in the gospel.

This book tells the story of the revitalization of Guilford Baptist Church in northern Virginia. Weaving together scripture and biblical principles with humor and personal anecdotes, author Michael McKinley asserts that a pastor’s faithful exposition of God’s Word, passion for sharing the gospel, and care in the training of other godly leaders are more important than the size of his church. McKinley honestly shares his own fears and rookie mistakes, along with encouraging stories of how God moved at Guilford Baptist. We are reminded that God uses weak and fearful pastors in plants and revitalizations; church planting is indeed for “wimps.” For pastors and seminarians considering a church plant and those already struggling in their own fledgling congregations, this book is a thoughtful and encouraging resource.
