The Churn is the best back story of them all. All the hints, and questions raised about Amos' dubious origins, unique skills, and precarious mental health are summed up nicely in this riveting little book. It also lays the groundwork for events in book five. Seriously, you can't leave this one out or you'll miss the best part!

The Churn: An Expanse Novella (The Expanse) - Kindle ...

The Churn is an additional book to the Expanse series, set before the series' beginnings and chronicling some events in the life of one of my favorite characters, Amos Burton. Amos, or Jimmy, is a low level thug with a lot of issues and a broken moral compass. And that is what makes him so compelling.

The River Churn is a tributary of the River Thames in central England. It rises at Seven Springs in Gloucestershire and flows south for approximately 37.3 km (23.2 mi) to meet the Thames at Cricklade in Wiltshire. Its length from its source to confluence with the Thames is greater than that of the Thames from Thames Head, though the Churn is regarded as a tributary rather than the main river.

River Churn - Wikipedia

2 : a regular, quantifiable process or rate of change that occurs in a business over a period of time as existing customers are lost and new customers are added The biggest problem they face is churn. Wireless providers lose an average of about 30% of their customers a year to competitors.

Churn | Definition of Churn by Merriam-Webster

Collectible Butter Churns for sale | eBay

Churn, or attrition, is a metric that measures how much business you've lost. This loss can be in: percent of customers - this is called customer churn and measures how many customers you've lost in a given period; or in revenue - this is called revenue churn and measures the money you've lost in a given period.

Customer Churn - The Ultimate Guide to Reducing Churn ...

Churn rate (sometimes called attrition rate), in its broadest sense, is a measure of the number of individuals or items moving out of a collective group over a specific period. It is one of two primary factors that determine the steady-state level of customers a business will support.

Churn rate - Wikipedia

Churn definition: A churn is a container which is used for making butter. | Meaning, pronunciation, translations and examples

Churn definition and meaning | Collins English Dictionary

User churn is the number of customers you're losing in a given timeframe (typically per month or year). But there's also revenue churn, which is arguably even more important. Revenue churn is the amount of revenue you're losing in a given timeframe due to downgrades or cancellations.

A novella set in the hard-scrabble world of James S. A. Corey's NYT-bestselling Expanse series, *The Churn* takes the bestselling sci-fi series to the dark world of organized crime, drugs, secrets, and murder that shaped the Rocinante's mechanic, Amos. Before his trip to the stars, before the Rocinante, Timmy was confined to a Baltimore where crime paid you or killed you. Unless the authorities got to you first. On a future Earth beset by overpopulation, pollution, and poverty, people do what they must to survive. *The Churn* follows a crime boss named Burton as his organization is threatened by a new private security force tasked with cleaning up the city. When the police start cracking down, Burton and his footsoldiers-loyal lieutenant Erich, former prostitute Lydia, and young enforcer Timmy-become increasingly desperate to find a way out. From New York Times bestselling author James S. A. Corey, *The Expanse* is now a hit television series. *The Expanse* Leviathan Wakes Caliban's War Abaddon's Gate Cibola Burn Nemesis Games Babylon's Ashes Persepolis Rising *The Expanse* Short Fiction *The Butcher of Anderson*

The fourth book in the NYT bestselling Expanse series, Cibola Burn sees the crew of the Rocinante on a new frontier, as the rush to colonize the new planets threatens to outrun law and order and give way to war and chaos. Now a Prime Original series. HUGO AWARD WINNER FOR BEST SERIES Enter a new frontier. ? "An empty apartment, a missing family, that's creepy. But this is like finding a military base with no one on it. Fighters and tanks idling on the runway with no drivers. This is bad juju. Something wrong happened here. What you should do is tell everyone to leave." The gates have opened the way to a thousand new worlds and the rush to colonize has begun. Settlers looking for a new life stream out from humanity's home planets. Ilus, the first human colony on this vast new frontier, is being born in blood and fire. Independent settlers stand against the overwhelming power of a corporate colony ship with only their determination, courage, and the skills learned in the long wars of home. Innocent scientists are slaughtered as they try to survey a new and alien world. The struggle on Ilus threatens to spread all the way back to Earth. James Holden and the crew of his one small ship are sent to make peace in the midst of war and sense in the midst of chaos. But the more he looks at it, the more Holden thinks the mission was meant to fail. And the whispers of a dead man remind him that the great galactic civilization that once stood on this land is gone. And that something killed it. Much of human history has played itself out along the rim of the Indian Ocean. In a first-of-its-kind attempt, bestselling author Sanjeev Sanyal tells the history of this significant region, which stretches across East Africa, the Middle East and the Indian subcontinent to South East Asia and Australia. He narrates a fascinating tale about the earliest human migrations out of Africa and the great cities of Angkor and Vijayanagar; medieval Arab empires and Chinese 'treasure fleets'; the rivalries of European colonial powers and a new dawn. Sanjeev explores remote archaeological sites, ancient inscriptions, maritime trading networks and half-forgotten oral histories, to make exciting revelations. In his inimitable style, he draws upon existing and new evidence to challenge well-established claims about famous historical characters and the flow of history. Adventurers, merchants, explorers, monks, swashbuckling pirates, revolutionaries and warrior princesses populate this colourful and multifaceted narrative. The Ocean of Churn takes the reader on an amazing journey through medieval geopolitics and eyewitness accounts of long-lost cities to the latest genetic discoveries about human origins, bringing alive a region that has defined civilization from the very beginning.

Most change efforts fail because most change methods are built to deal with single challenges in a nice, neat, linear way. But leaders know that today, pressures for change don't come at you one at a time; they come all at once. It's like riding a roller coaster: sudden drops, jarring turns, anxious climbs

into the unknown. Drawing on his years of experience at the Center for Creative Leadership and Columbia University, Bill Pasmore offers a four-part model and four mindsets that allow leaders to deal with multiple changes simultaneously without drowning in the churn. The first step, Pasmore says, is to Discover which external pressures for change are the most necessary to address. The key here is to think fewer-step away from the buffet of possibilities and pinpoint the highest-impact options. Then you need to Decide how many change efforts your organization can handle. Here the mindset is to think scarcer—you have only so many people and so many resources, so how do you best use them? Once you've figured that out, it's time to Do—and here you want to think faster. Streamline processes and engage in rapid prototyping so you can learn quickly and cost-effectively. The last step is to Discern what worked and what didn't, so think smarter—develop metrics, identify trends, and make sure learnings are disseminated throughout the organization. For each stage of the process, Pasmore offers detailed advice, practical tools, and real-world examples. This book is a comprehensive guide to navigating change the way it happens now.

A novella set in the hard-scrabble world of James S. A. Corey's NYT-bestselling Expanse series, Strange Dogs follows a family of colonists on Laconia where a new generation of humanity struggles with the profound changes that come with making a home on an alien world. Now a Prime Original series. HUGO AWARD WINNER FOR BEST SERIES Like many before them, Cara and her family ventured through the gates as scientists and researchers, driven to carve out a new life and uncover the endless possibilities of the unexplored alien worlds now within reach. But soon the soldiers followed and under this new order Cara makes a discovery that will change everything. "Customer Success will become the authoritative book of the emerging Customer Success industry and target any business that is trying to focus, or re-focus, on customers and will be applicable to all customer management roles such as Account Manager, Customer Advocacy, Client Relationship Manager, and Customer Success Manager along with the leadership of those organizations. Customer Success will address the pains of how to start creating a customer-centric company and how to think strategically about Customer Success - how to organize, compensate, find a leader, measure, etc. Customer Success has exploded as one of the hottest B2B movements since the advent of the subscription business model"--

"An engrossing and impossibly wide-ranging project . . . In The Free World, every seat is a good one."

—Carlos Lozada, The Washington Post "The Free World sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high." —David Oshinsky, The New York Times Book Review | Editors' Choice Named a most anticipated book of April by The New York Times | The Washington Post | Oprah Daily In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of "freedom" applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt's Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage's residencies at North Carolina's Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg's friendship with Lionel Trilling, James Baldwin's transformation into a Civil Right spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

Before his trip to the stars, before the *Rocinante*, Amos Burton was confined to a Baltimore where crime paid you or killed you. Unless the authorities got to you first. Set in the hard-scrabble solar system of *Leviathan Wakes*, *Caliban's War*, *Abaddon's Gate* and the upcoming *Cibola Burn*, *The Churn* expands the world of James S. A. Corey's acclaimed *Expanse* series.
