Rollo May (1909-1994) taught at Harvard, Princeton, and Yale, and was Regents' Professor at the University of California, Santa Cruz. An influential psychologist, he was the best-selling author of *Love and Will*, as well as the author of *The Courage to Create*, *Man's Search for Himself*, *The Meaning of Anxiety*, and *Psychology and the Human Dilemma*.

The Courage to Create: May, Rollo: 9780393311068: Amazon ...

Rollo May is wise and inspiring. The *Courage to Create* makes me long for a time when psychology was richer, full of life, and fed so much more by the humanities and mythology as compared to the sterile, narrow-minded field we have today. He retorts "I do not use this term myth in the common present-day deteriorated meaning of 'falsehood.'"

Rollo May, the Courage to Create, and How to Become More ...

We have two choices: either to withdraw and panic, or to develop the courage to create a better society. The second choice requires courage, and of course, creativity. Courage means to move ahead even when moving ahead seems hopeless. This courage must be centered in our own being; it is the courage of our convictions and underlies all other ...

The Courage to Create Quotes by Rollo May - Goodreads

Excerpts from "The Courage To Create" by Rollo May. "Anxiety is an even better teacher than reality, for one can temporarily evade reality by avoiding the distasteful situation; but anxiety is a source of education always present because one carries it within." "Many people feel they are powerless to do anything effective with their lives.

Excerpts from "The Courage To Create" by Rollo May

Rollo May's "The Courage to Create" was written in 1975 - in a time when the presence of the atom bomb created an anxiety that prevented people to create for a future that was unsure, at best. Now in 2000, twenty five years of cosmic angst have intensified to a fear of the limits of even a glimpse of a future and it is reaffirming to return to Rollo May to regain the courage to "rage against the dying of the light."

The Courage to Create - Rollo May - Google Books

Life requires different kinds of courage, but the late psychologist Rollo May argued that none is more important than the courage to create. For May, courage is the fountainhead of all virtues, and imagination, far from simply icing on the existential cake, is the source of human achievement and meaning in our lives.

Rollo May (1909-1994) taught at Harvard, Princeton, and Yale, and was Regents' Professor at the University of California, Santa Cruz. An influential psychologist, he was the best-selling author of *Love and Will*, as well as the author of *The Courage to Create*, *Man's Search for Himself*, *The Meaning of Anxiety*, and *Psychology and the Human Dilemma* --This text refers to the paperback edition.

"Extraordinary, wise, and hopeful... nearly poetic meditations."—Boston Globe What if imagination and art are not, as many of us might think, the frosting on life but the fountainhead of human experience? What if our logic and science derive from art forms, rather than the other way around? In this trenchant volume, Rollo May helps all of us find those creative impulses that, once liberated, offer new possibilities for achievement. A renowned therapist and inspiring guide, Dr. May draws on his experience to show how we can break out of old patterns in our lives. His insightful book offers us a way through our fears into a fully realized self.

Selected essays on such topics as freedom, responsibility, anxiety, and psychotherapy probe the problems faced by contemporary man

"Analyzes life as we are living it, and the analysis is truthful and profound."--New York Times Loneliness, boredom, emptiness: These are the complaints that Rollo May encountered over and over from his patients. In response, he probes the hidden layers of personality to reveal the core of man's integration--a basic and inborn sense of value. *Man's Search for Himself* is an illuminating view of our predicament in an age of overwhelming anxieties and gives guidance on how to choose, judge, and act during such times.

"Clear, accurate, and interesting. There is no better short introduction to the existential approach to psychology." —Dallas Morning News The brilliant psychologist Rollo May was a major force in existential psychology. Here, he brings together the ideas of Kierkegaard, Nietzsche, and other great thinkers to offer insights into its ideas and techniques. He pays particular attention to the causes of loneliness and isolation and to our search to find new and firm moorings in order to move toward a future where responsibility, creativity, and love can play a role.

In post-World War II America and especially during the turbulent 1960s and 1970s, the psychologist Rollo May contributed profoundly to the popular and professional response to a widely felt sense of personal emptiness amid a culture in crisis. May addressed the sources of depression, powerlessness, and conformity but also mapped a path to restore authentic individuality, intimacy, creativity, and community. A psychotherapist by trade, he employed theology, philosophy, literature, and the arts to answer a central enduring question: "How, then, shall we live?" Robert Abzug's definitive biography traces May's epic life from humble origins in the Protestant heartland of the Midwest to his longtime practice in New York City and his participation in the therapeutic culture of California. May's books--*Love and Will*, *Man's Search for Himself*, *The Courage to Create*, and others--as well as his championing of non-medical therapeutic practice and introduction of Existential psychotherapy to America marked important contributions to the profession. Most of all, May's compelling prose reached millions of readers from all walks of life, finding their place, as Noah Adams noted in his NPR eulogy, "on a hippy's bookshelf." And May was one of the founders of the humanistic psychology movement that has shaped the very vocabulary with which many Americans describe their emotional and spiritual lives. Based on full and uncensored access to May's papers and original oral interviews, *Psyche and Soul in America* reveals his turbulent inner life, his religious crises, and their influence on his contribution to the world of psychotherapy and the culture beyond. It adds new and intimate dimensions to an important aspect of America's romance with therapy, as the site for the exploration of spiritual strivings and moral dilemmas unmet for many by traditional religion.

Here are case studies in which myths have helped Dr. May's patients make sense out of an often senseless world. It happens almost daily in a therapist's office. A patient, recalling a person, an event, an emotion, quite unexpectedly supplies a link from a life in the present to one of the durable myths of our culture. In this moment, the myth becomes a mirror, revealing to the patient the source of disturbance and pain in a pattern of behavior that often stretches a year or longer. The healing process begins. The myth, "eternity breaking into time" in Rollo Mays's words, becomes the focal point of recovery. Through tracing myths – whether from classical Greece and Dante's Middle Ages, European legend (Faust and the prototype of Sleeping Beauty), or contemporary American life (Jay Gatsby) -- and relating them to the dreams and associations he encounters in his own practice, Dr. May provides meaning and structure for all who seek direction in a morally confusing world. In this, perhaps the finest achievement of a great therapist, Rollo May writes with "the grace, wit, and style: for which he recently received the Gold Medal of the American Psychological Society.

Dr. May explains the relationship between apathy and violence in this examination of the constructive and destructive aspects of aggression

Includes fourteen line drawings, one black-and white photo, and sixteen unpagged "full color paintings by the author."

I saw that all the things I feared and which feared me had nothing good or bad in them save in so far as the mind was affected by them.-Spinoza, Treatise on

the Correction of the Understanding. I would say that learning to know anxiety is an adventure which every man has to affront if he would not go to perdition either by not having known anxiety or by sinking under it. He therefore who has learned rightly to be anxious has learned the most important thing.-Kierkegaard, The Concept of Dread. ... one thing is certain, that the problem of anxiety is a nodal point, linking up all kinds of most important questions; a riddle, of which the solution must cast a flood of light upon our whole mental life.-Freud, General Introduction to Psychoanalysis.

The heart of the dilemma of modern man is our failure to understand the real meanings of love and will, their sources and their interrelations. In bringing fresh insight and interpretation to these concepts, May shows how we can attain a deeper consciousness.
