This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT).

Legendary American Radiology Board Review Expert Prometheus Lionhart presents a comprehensive review for the FRCR Part A Exam. This is a 2 volume Set. This is Volume 2 which includes, Modules 4-6 (Genito-urinary, Adrenal, Obstetrics & Gynaecology, Breast, Paediatrics, Neuroradiology).

Reflecting the latest change to the exam, the introduction of single best answer questions (SBAs), this book is completely up to date and offers a valuable insight into the new exam format. Providing candidates with a wealth of practice questions and organized by subject matter into the modular format, this comprehensive collection of practice SBAs

Reflecting the latest change to the exam, the introduction of single best answer questions (SBAs), this book is completely up to date and offers a valuable insight into the new exam format. Providing candidates with a wealth of practice questions and organized by subject matter into the modular format, this comprehensive collection of practice SBAs is designed to help candidates assess their own knowledge, aiding thorough preparation for the exam. The book opens with an introduction to the exam, which includes advice on how to prepare for it and information on what to expect. It also offers helpful advice on question comprehension and answer strategies to help candidates achieve exam success. Written by practising Specialist Registrars and Junior Consultants in radiology, and supplemented with detailed explanatory text referenced to major radiology journals and specialist textbooks, Get Through Final FRCR Part A is the essential revision tool for all Specialist Registrars taking the Final FRCR exam.

Legendary American Radiology Board Review Expert Prometheus Lionhart presents a comprehensive review for the FRCR Part A Exam. This is a 2 volume Set. This is Volume 1 which includes, Modules 1-3 (Cardiothoracic and Vascular, Musculoskeletal, and Gastrointestinal).

Revision Notes for the Final FRCR Part A summarises the core knowledge required for each of the six test papers that make up the exam, all in highly succinct bullet point format. The book takes the stress out of the revision process by providing candidates with a readymade set of highly synthesised and relevant notes that focus exclusively on the topics encountered in the exam. Thoroughly updated for the second edition, each chapter has been authored by successful exam candidates and in turn edited by consultant radiologists to provide highly relevant, high quality, high yield revision notes. Key Points Chapters mirror the structure of the exam: chest & cardiovascular, musculoskeletal and trauma, gastrointestinal & hepatobiliary, paediatrics, genitourinary, gynaecology & breast, and neuroradiology/head & neck Only essential facts are presented and are based entirely upon past questions from the exam Each revision topic is presented in a concise manner and exhaustive lists of differential diagnoses have been distilled into those conditions most often tested

Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

300 Single Best Answers for the Final FRCR Part A provides 300 practice MCQs, in the new style single best answer format, for candidates preparing for Final FRCR examinations. The book is organised into six chapters that reflect the format of the exam. Each chapter comprises 50 MCQs and an answer section that provides a detailed rationale for the correct response. Key Points Q&As mirror the new Single Best Answer format adopted by the RCR in 2009: few other books available in this new format Detailed rationales provided for every single question, so candidates understand why the correct answer is right

Providing everything you need to pass the FRCR Part 2A, this book provides a thorough assessment of a candidate's radiological knowledge. The book is divided into six chapters, with 75 questions in each chapter, mirroring the modules and exam papers laid out by the Royal College of Radiologists. This makes you as familiar as possible with its style, content and structure and facilitates directed learning. All questions have been formulated to reflect the current best practice and evidenced-base, ensuring candidates' knowledge of their field is up-to-date. A detailed explanation is provided for each question, including references to review publications or widely-used textbooks, which allow detailed follow-up on the issues discussed.

This is a vital revision aid for postgraduate radiology students taking the Fellowship of the Royal College of Radiology (FRCR) Part 2 final exams. Part 2 comprises two elements: 2a includes a series of six multiple choice exams covering the major body systems, and 2b contains a written exam and an oral viva typically taken at the beginning of the fourth year of specialty training.
