Masters standards." Lee Pimlott, Masters Student, University of Derby, UK Amazon reviews for the 1st edition: "The ONE book you need to guide you through writing your master's thesis. It ensures you 'tick all the boxes' necessary for a good result. I especially liked the 'common mistake by students' in each section." "The book provides structure, clarity, time management and advice on content for your dissertation. I am delighted to say I passed my Master's with a distinction and owe a lot to the guidance provided by this book." This popular book continues to demystify the dissertation writing process. Taking a step-by-step approach to the dissertation life cycle and highlighting examples of good and bad practice and the common mistakes that students often make, the book provides clear guidance on how to gain marks, as well as how to avoid losing them. From your initial research proposal to your final submission, you will find this book an indispensable guide. This new edition offers: Additional advice on mind-mapping, note taking and speed reading techniques, as well as time management and how to make the most of your supervisor More information on research methods A new chapter 'Systematic Reviews' Succeeding with Your Master's Dissertation is essential reading for all students tackling dissertations on Master's courses or on short postgraduate courses, the social sciences, business and humanities. The book is also key reading for supervisors and undergraduates considering postgraduate study.

A compact book offering students specific, succinct guidance to the core process and major hurdles involved in undertaking a PhD. As well as offering practical advice, such as how to shape initial ideas, the book also encourages students to find and value their own pathways and approaches within academia.

This comprehensive Research Handbook provides an overview of the debates on how the law does, and could, relate to migration exacerbated by climate change. It contains conceptual chapters on the relationship between climate change, migration and the law, as well as doctrinal and prospective discussions regarding legal developments in different domestic contexts and in international governance.

Writing high quality grant applications is easier when you know how research funding agencies work and how your proposal is treated in the decision-making process. The Research Funding Toolkit provides this knowledge and teaches you the necessary skills to write high quality grant applications. A complex set of factors determine whether research projects win grants. This handbook helps you understand these factors and then face and overcome your personal barriers to research grant success. The guidance also extends to real-world challenges of grant-writing, such as obtaining the right feedback, dealing effectively with your employer and partner institutions, and making multiple applications efficiently. There are many sources that will tell you what a fundable research grant application looks like. Very few help you learn the skills you need to write one. The Toolkit fills this gap with detailed advice on creating and testing applications that are readable, understandable and convincing.

This engaging book outlines effective strategies for supervising students on a wide variety of research projects, whether at undergraduate or postgraduate level. It covers each stage of the research journey and provides guidance on working with students to define research topics, select appropriate methodologies, write up theses and prepare for the viva. It also supports supervisors in establishing and maintaining good supervisory practices, and shows how supervisors can help students to help themselves. This will be essential reading for supervisors of undergraduate or postgraduate research projects, dissertations and theses. It is also an ideal resource for student researchers looking to get the most out of their relationship with their supervisor. New to this Edition: - New content on cross-cultural supervision, online distance supervision and sustaining research communities and networks

Presents advice and guidance for postgraduate students in Great Britain, covering such topics as the application process, research proposals, academic writing, networking, and teaching opportunities.

This accessible guide equips students to succeed in their master's thesis or doctoral dissertation in psychology. The authors provide concrete assistance to the myriad tasks and requirements that students will encounter as they plan, conduct, and present their dissertation or thesis research. Drawing upon their many years of experience in working with graduate students, the authors address the multiple stages of the dissertation and thesis process. They take you through drafting the proposal, the advisor-advisee relationship, interacting with committee members, the writing process, handling obstacles, and the final presentation. Chapters provide guidance on using a research team, collecting data, conducting a literature review, and even acquiring financial support. Finally, students will find additional resources such as practical information on copyright issues, research methods, case analyses, and teleconferencing. This is an essential book for both graduate psychology students working on their master's theses or doctoral dissertations and their advisors.
